# MAPEPROOF PRIMER 3296 MAPELASTIC FOUNDATION

## MAPEPROOF

## MAPEPROOF

Sodium bentonite based waterproofing membrane suitable for use in vertical and horizontal planes underground structures

- 1,1 m x 5 m
- 2,5 m x 22,5 m
- 5 m x 40 m

Shipped in rolls

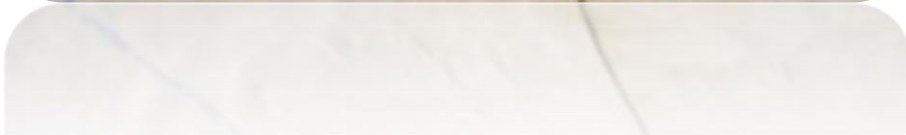

- It can be easily applied in all kinds of atmospheric conditions and in different shapes of building elements
- Substrate preparation is very little needed
- No primer or adhesive required

# MAPEPROOF

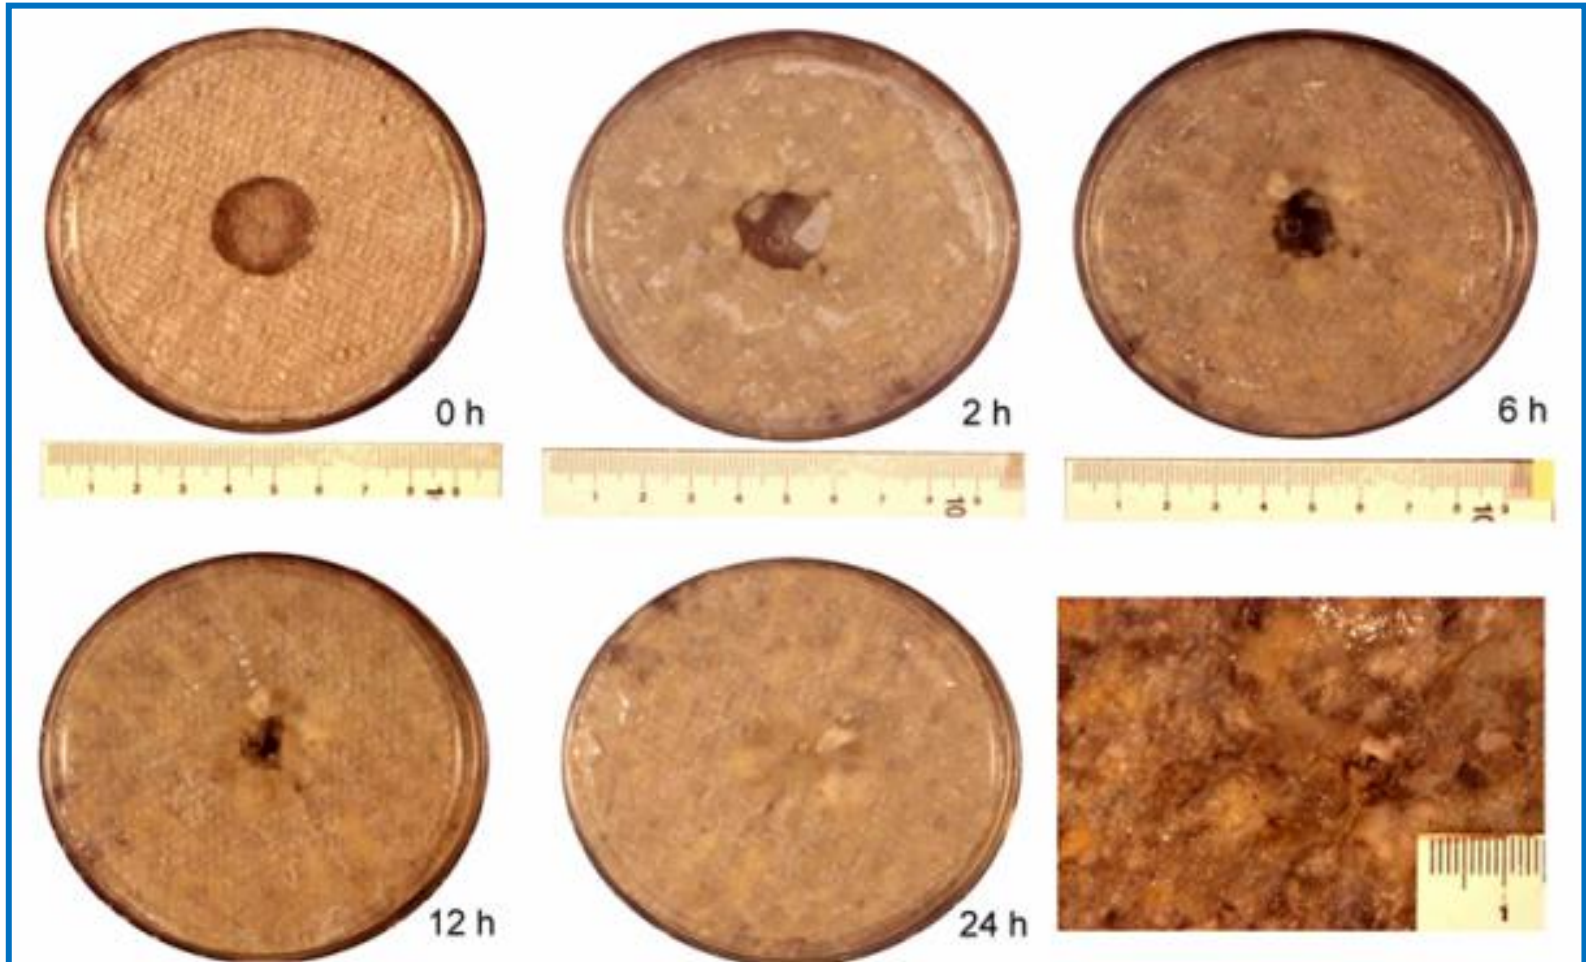

## Application Examples

# MAPEPROOF

- Repair of the Mapeproof membrane itself 24 hours a day

## Complementary Products

MAPEPROOF CD

MAPEPROOF MASTIC

MAPEPROOF SEAL

# PRIMER 3296

## PRIMER 3296

- Water-dispersible acrylic primer that provides high penetration, dust-free coatings that consume hollow surfaces.
- It's provided in 5kg and 10kg canisters
- MAPELASTIC FOUNDATION is used as primer before application

The advertisement features a blue background on the left with the MAPEI logo and the product name 'Mapelastic Foundation' in large, bold, white letters with a black outline. Below the name, there is a small inset image showing a white bag and a blue bucket of the product. On the right, a photograph shows a person wearing a blue glove using a roller to apply the product to a wall. The wall has a corrugated metal structure at the top. A CE mark and 'EN 1504-2' are visible in the top right corner of the photograph. A small circular logo with a recycling symbol and the text 'CONFORME ALLA NORMA EUROPEA EN 1504-2 (C) PRINCIPI PI-MC-IR MAPEI' is located in the top left corner of the blue background.

## MAPELASTIC FOUNDATION (Y.19.085/005)

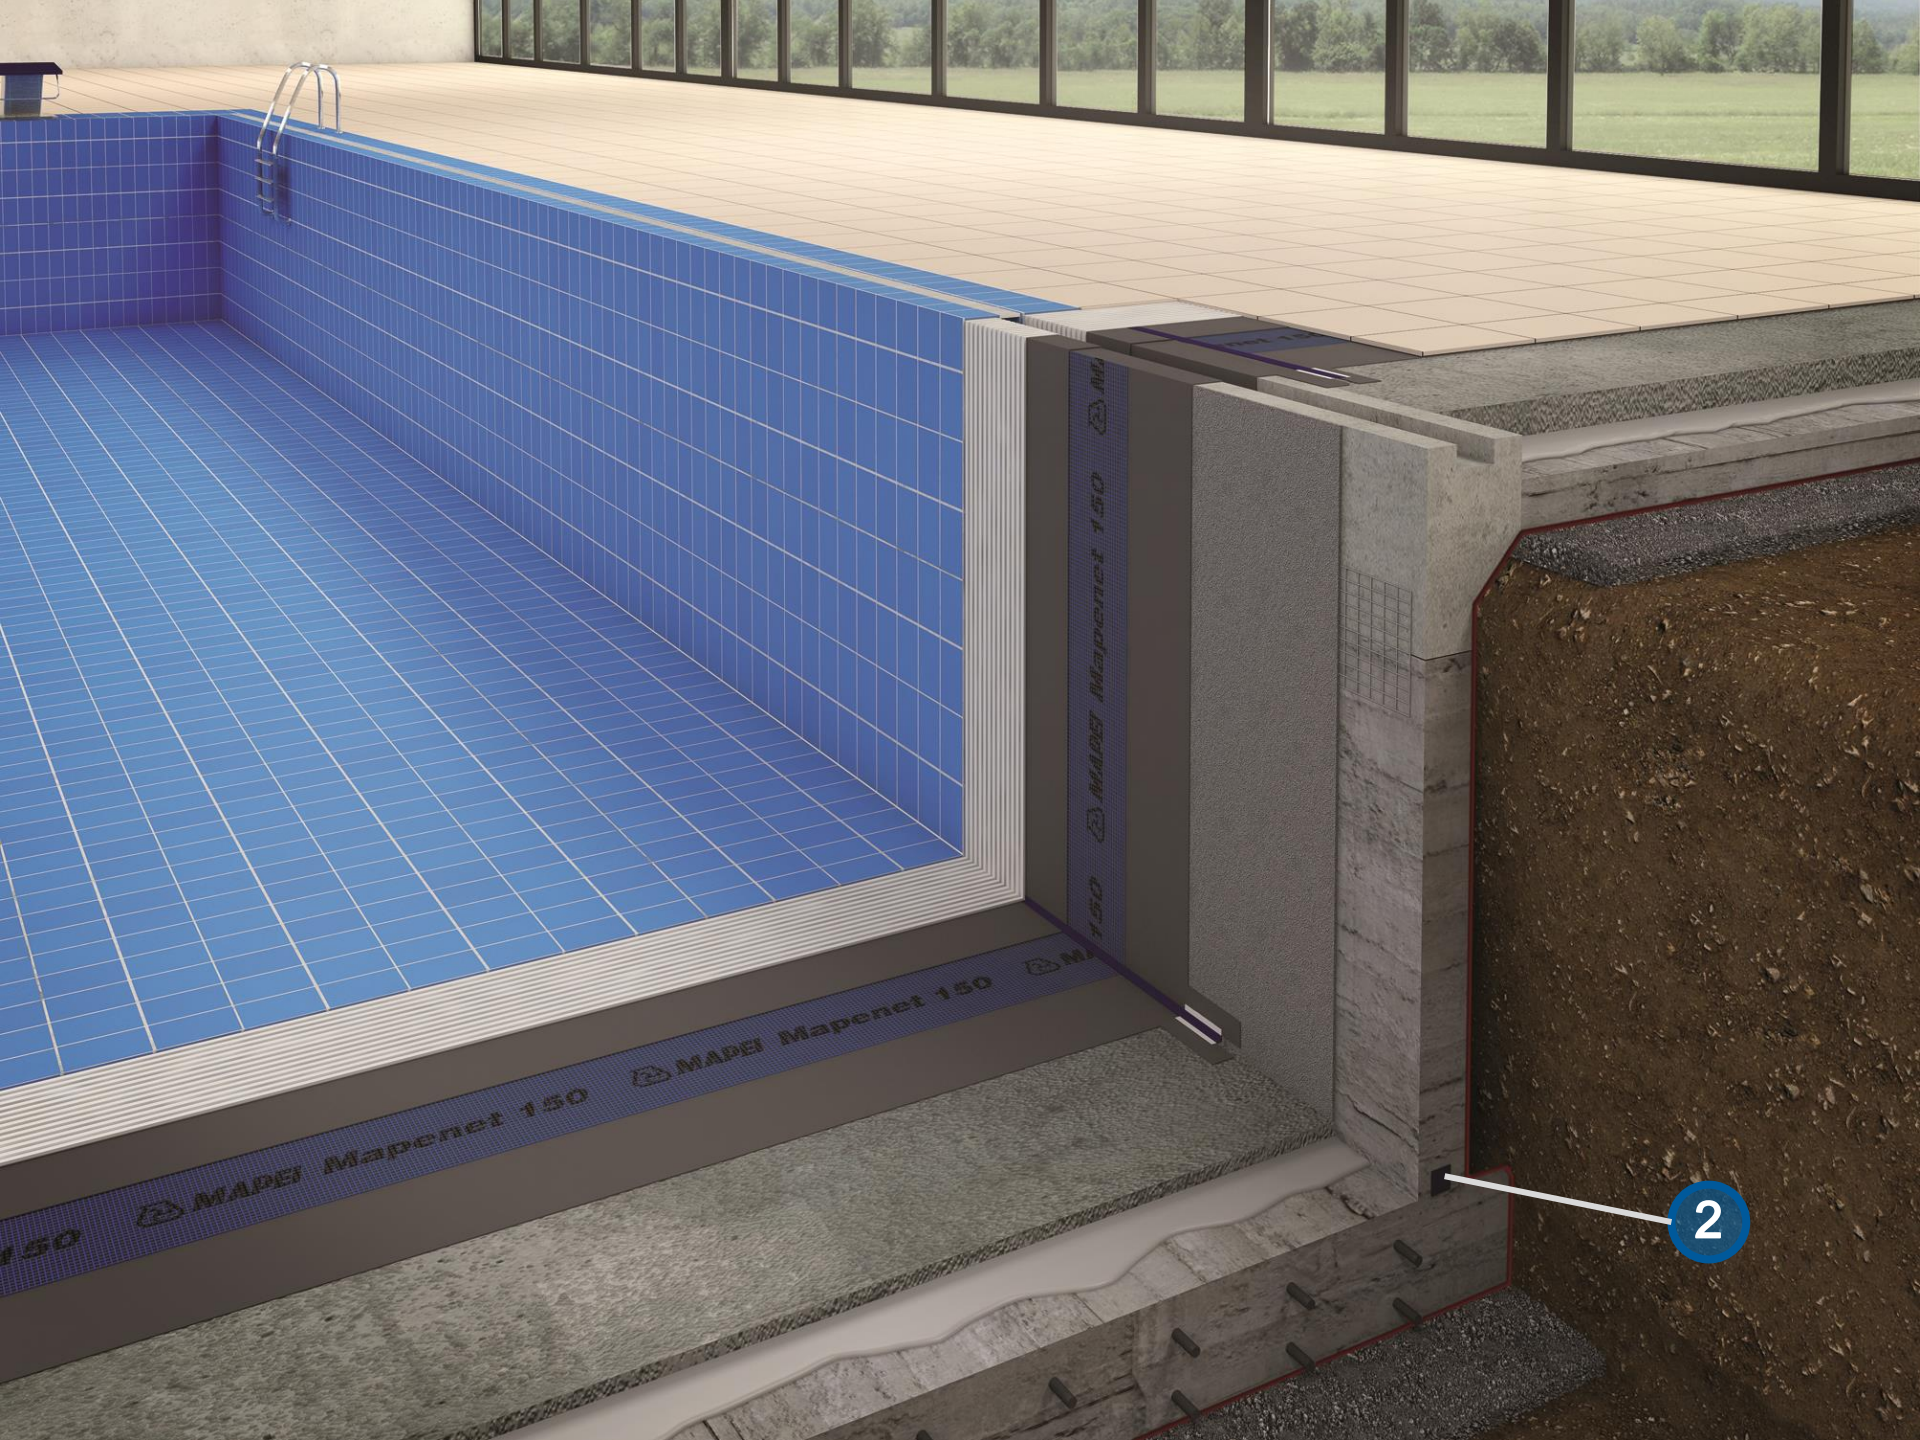

Pozitif ve negatif su basıncına karşı çalışan, çimento esaslı, iki bileşenli su yalıtım membranı.

(A) 22 kg + (B) 10 kg  
32 kg set halinde temin edilir.

Betonarme perde duvar ve/veya temel ampattmanlarında su yalıtım örtüleri ile birlikte kullanım için uygundur.

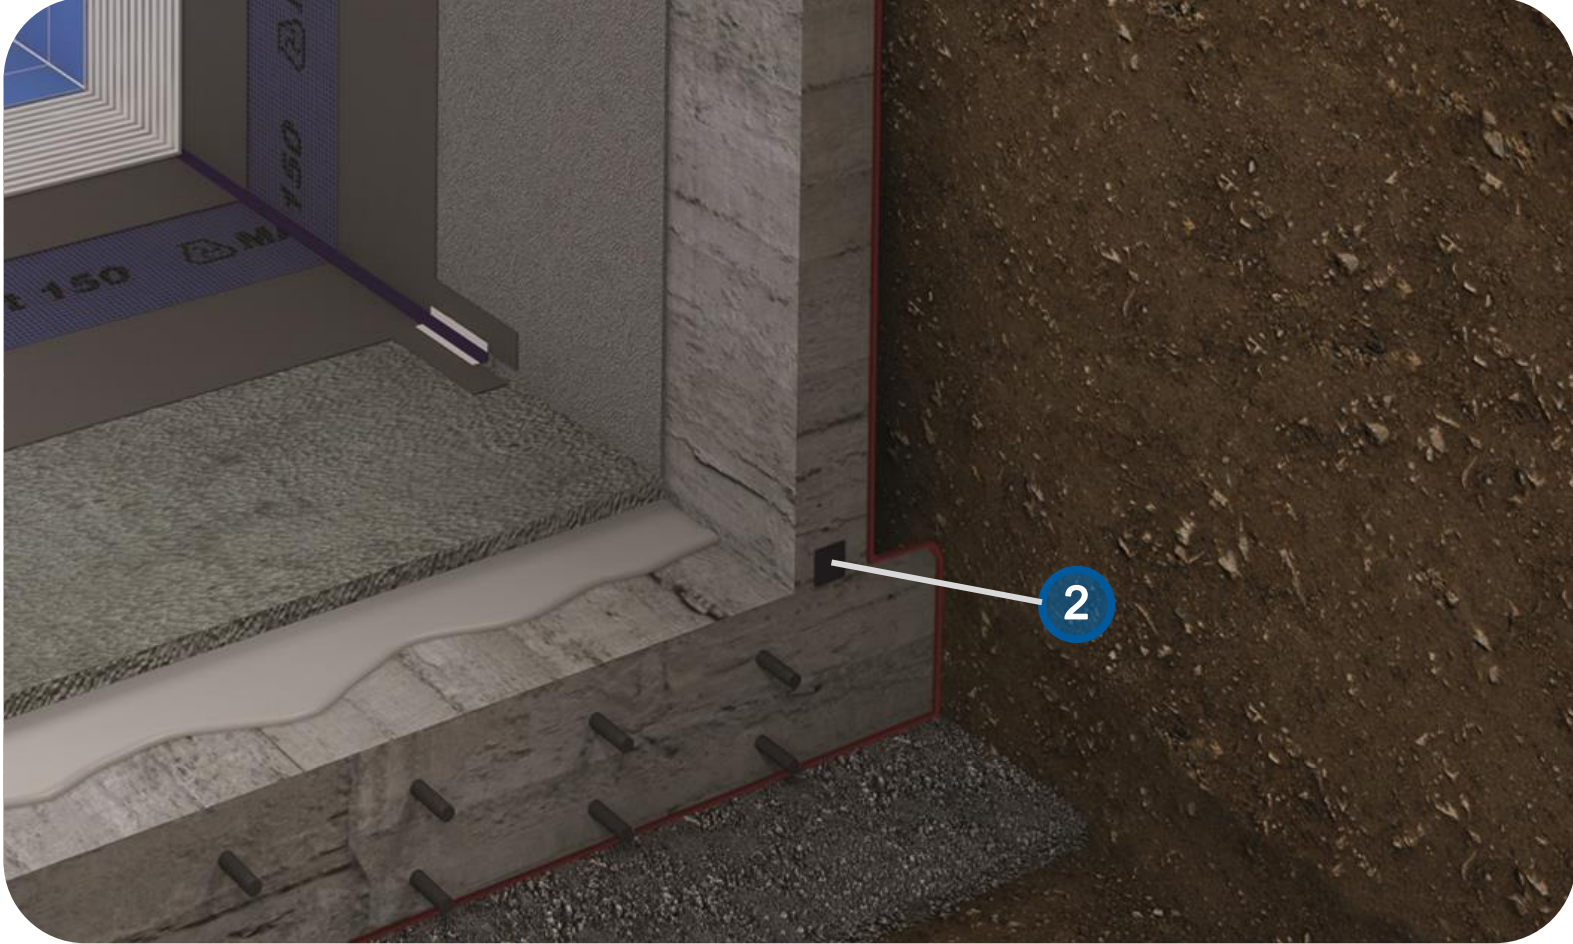

2

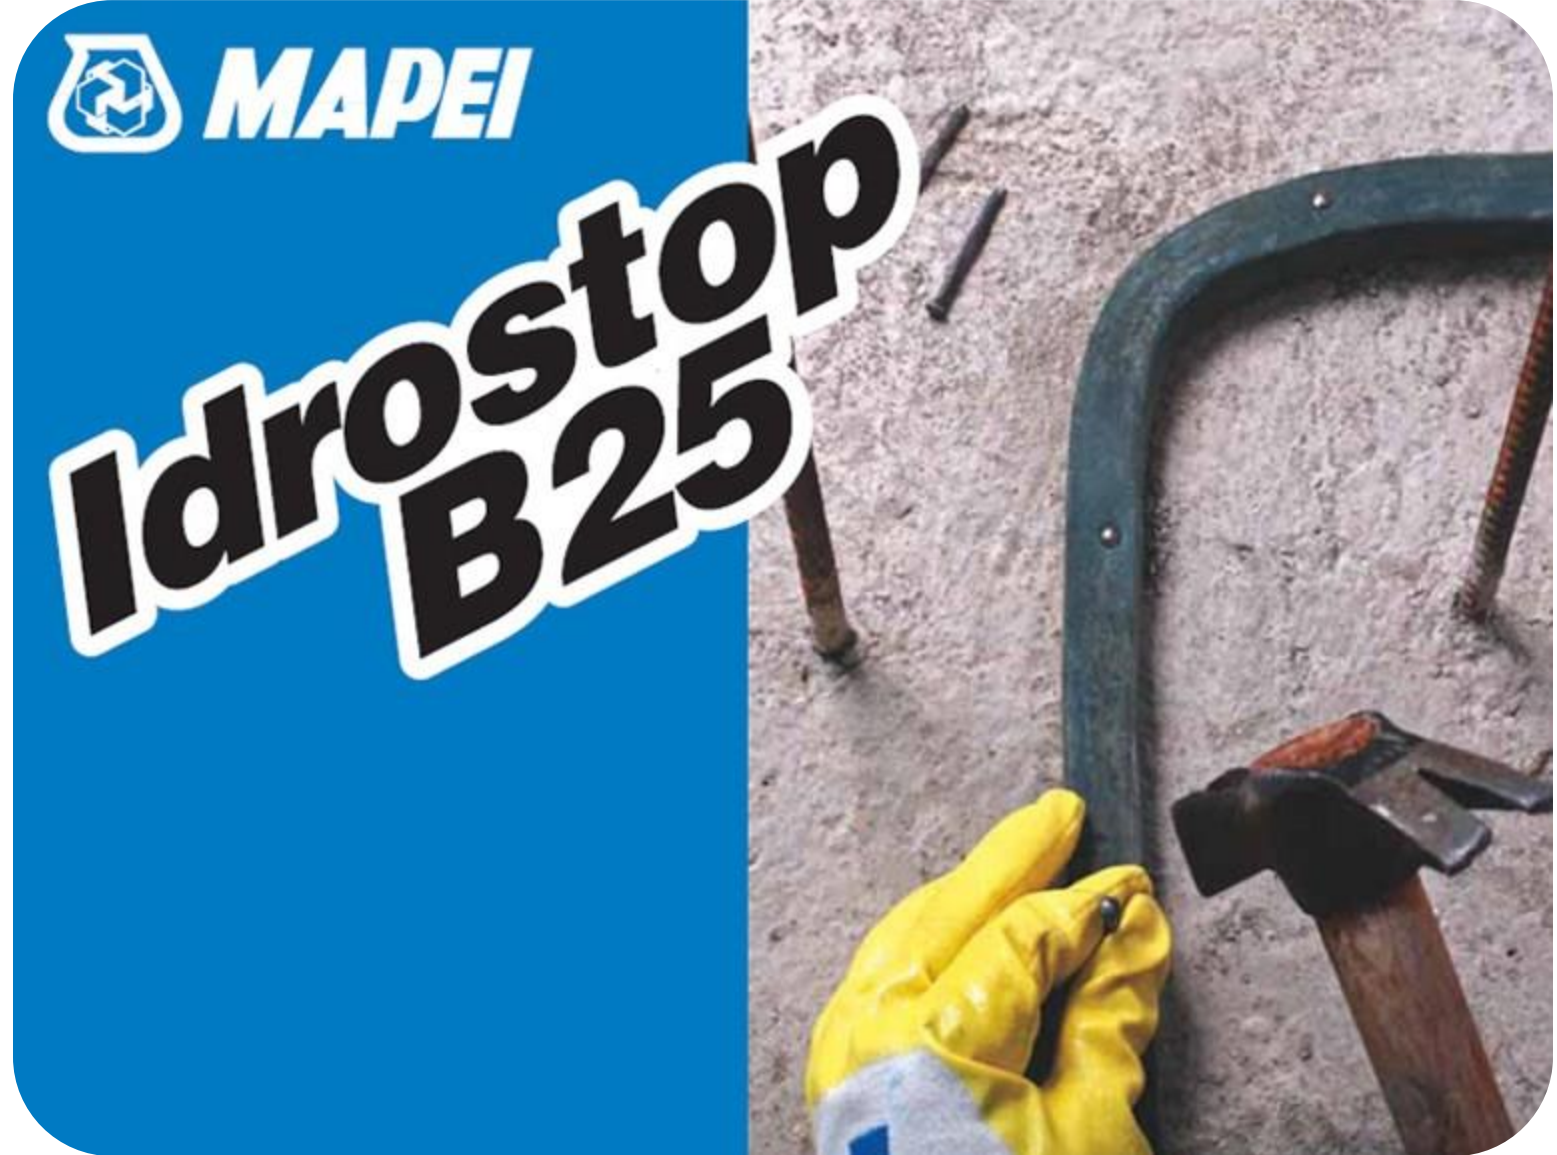

## IDROSTOP B25

# IDROSTOP B25

## IDROSTOP B25

Bentonite based tape used for cold joints, expanding with water

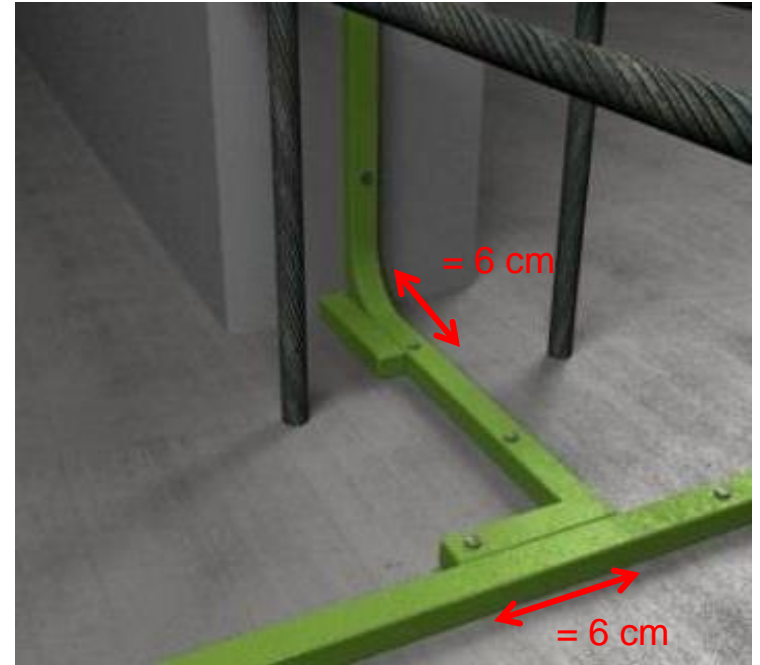

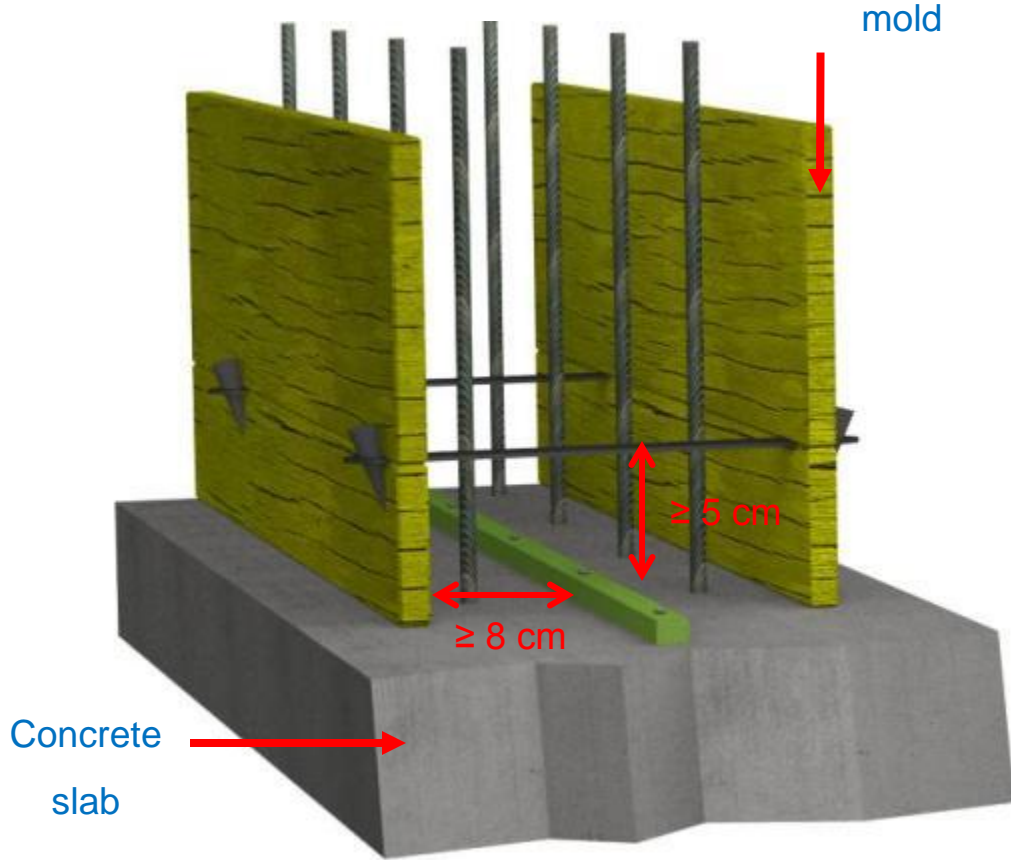

20 mm x 25 mm x 5 m x 6  
Are provided in boxes

It is also used in the insulation of the cold joints which will be formed between the reinforced concrete structural elements made of concrete

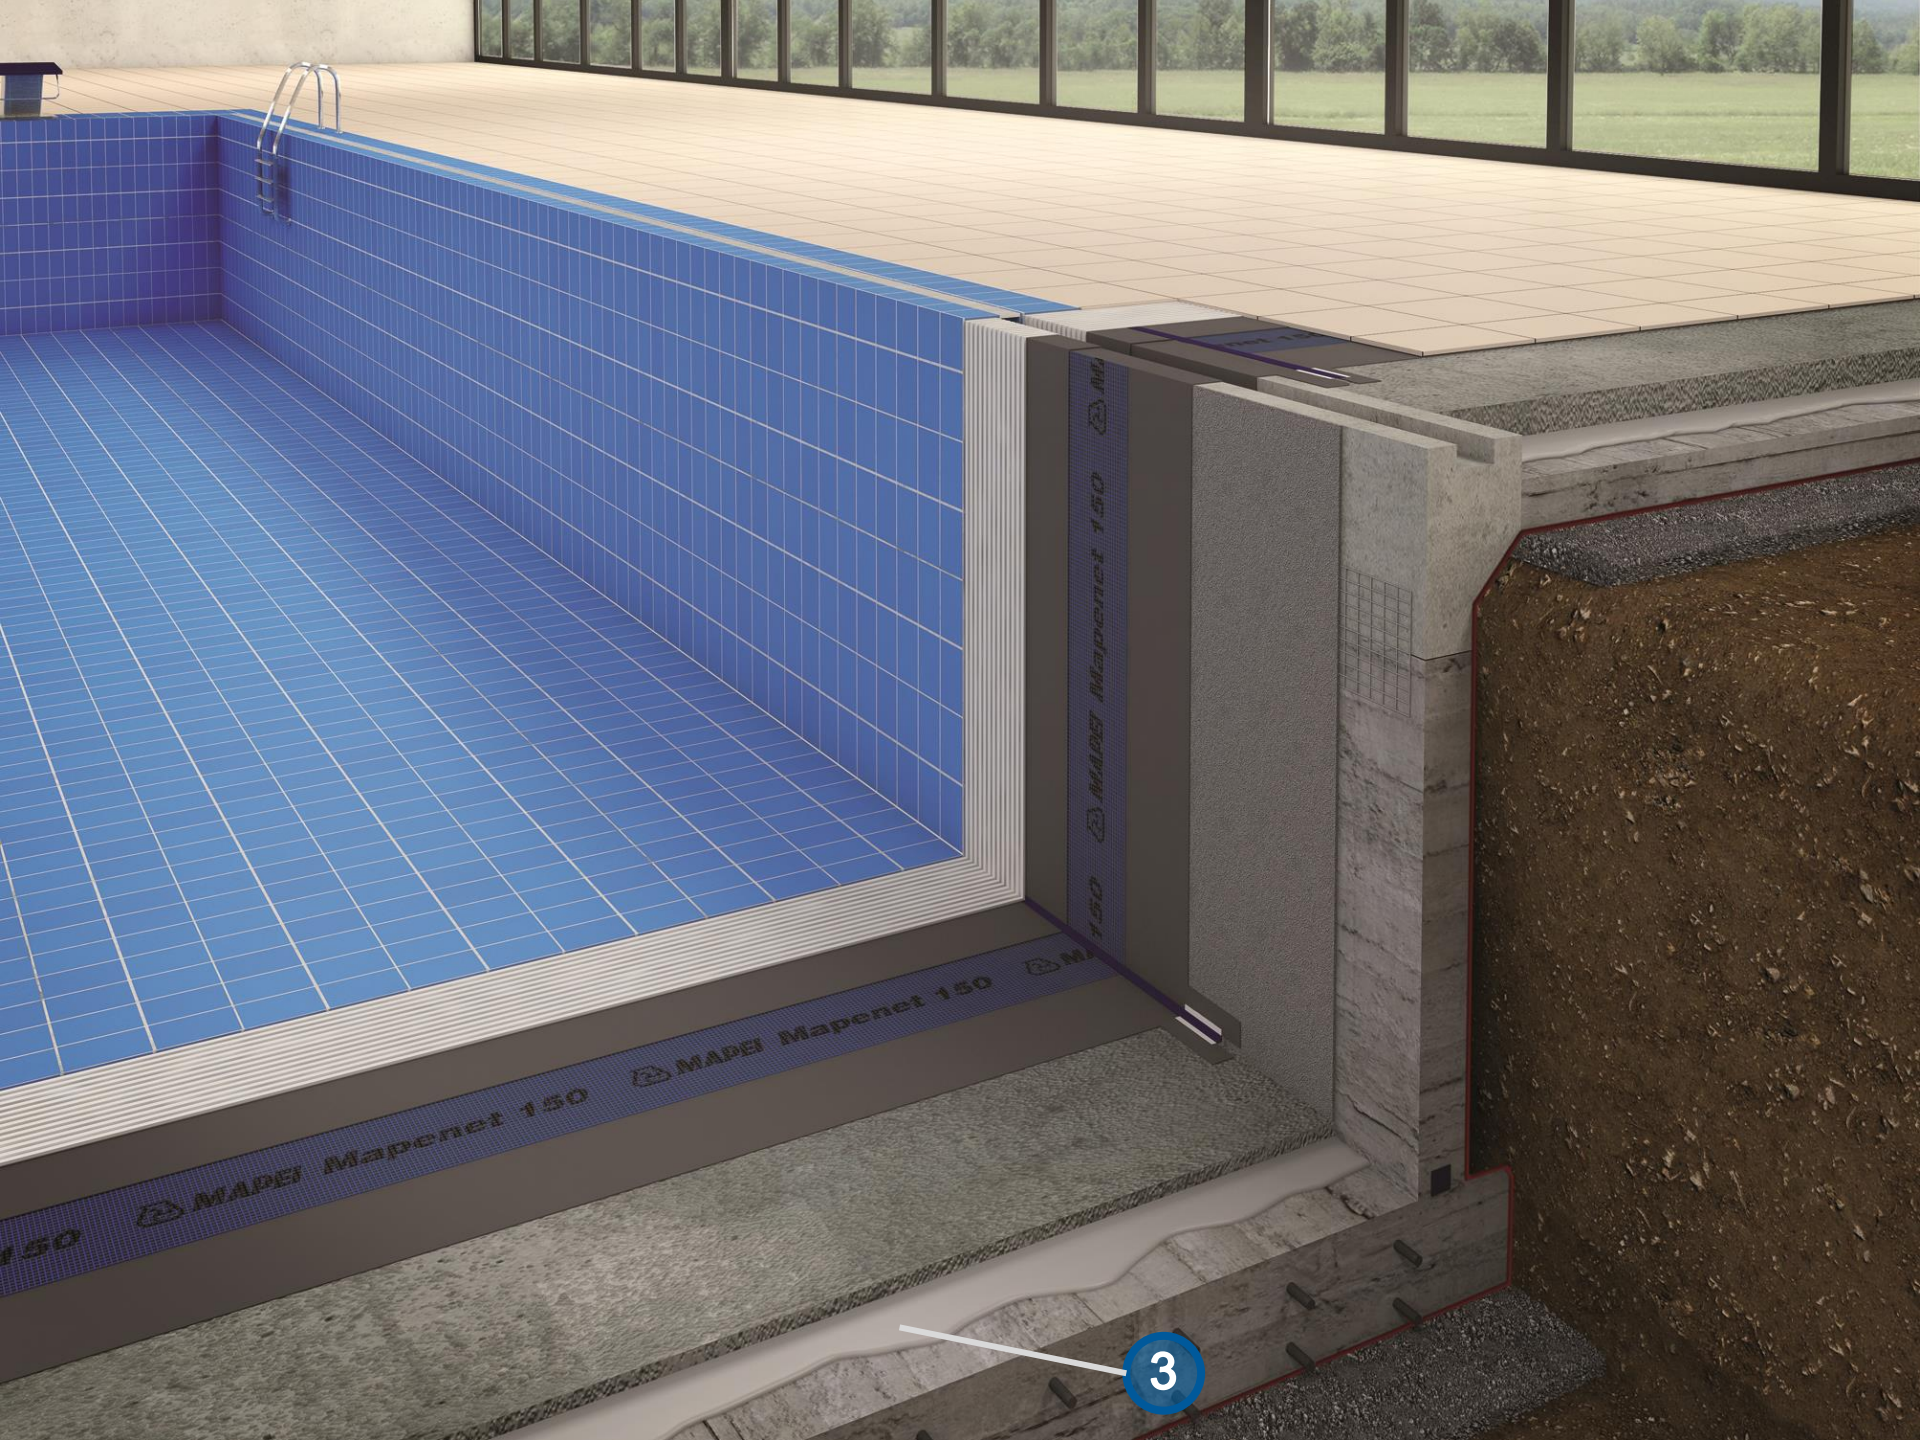

# IDROSTOP B25

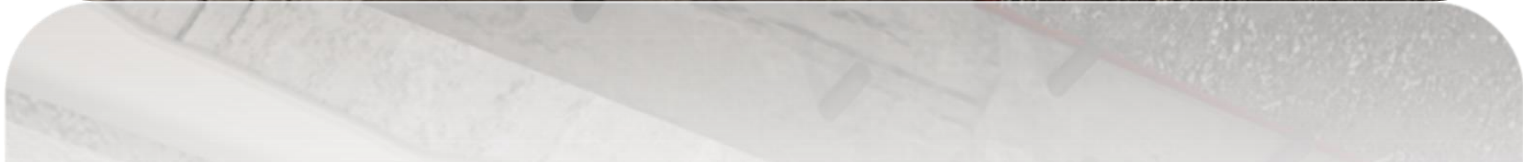

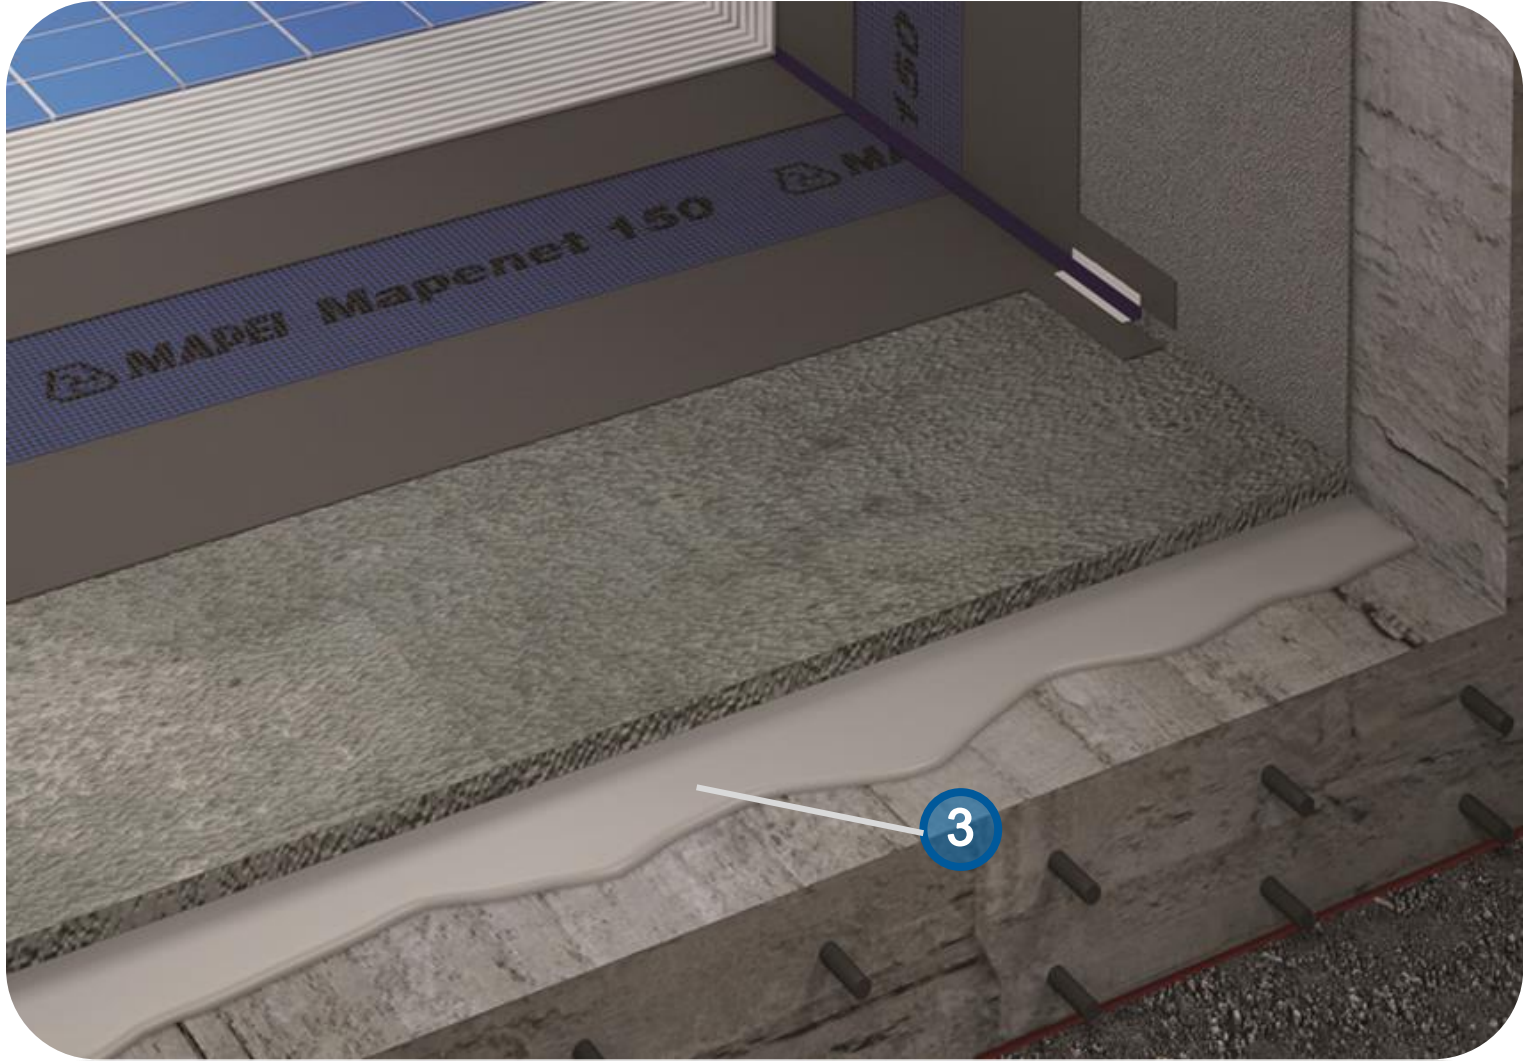

Application Details

3

# PLANICRETE

# Planicrete

## PLANICRETE

Synthetic rubber latex for cement based stalks and sivar.

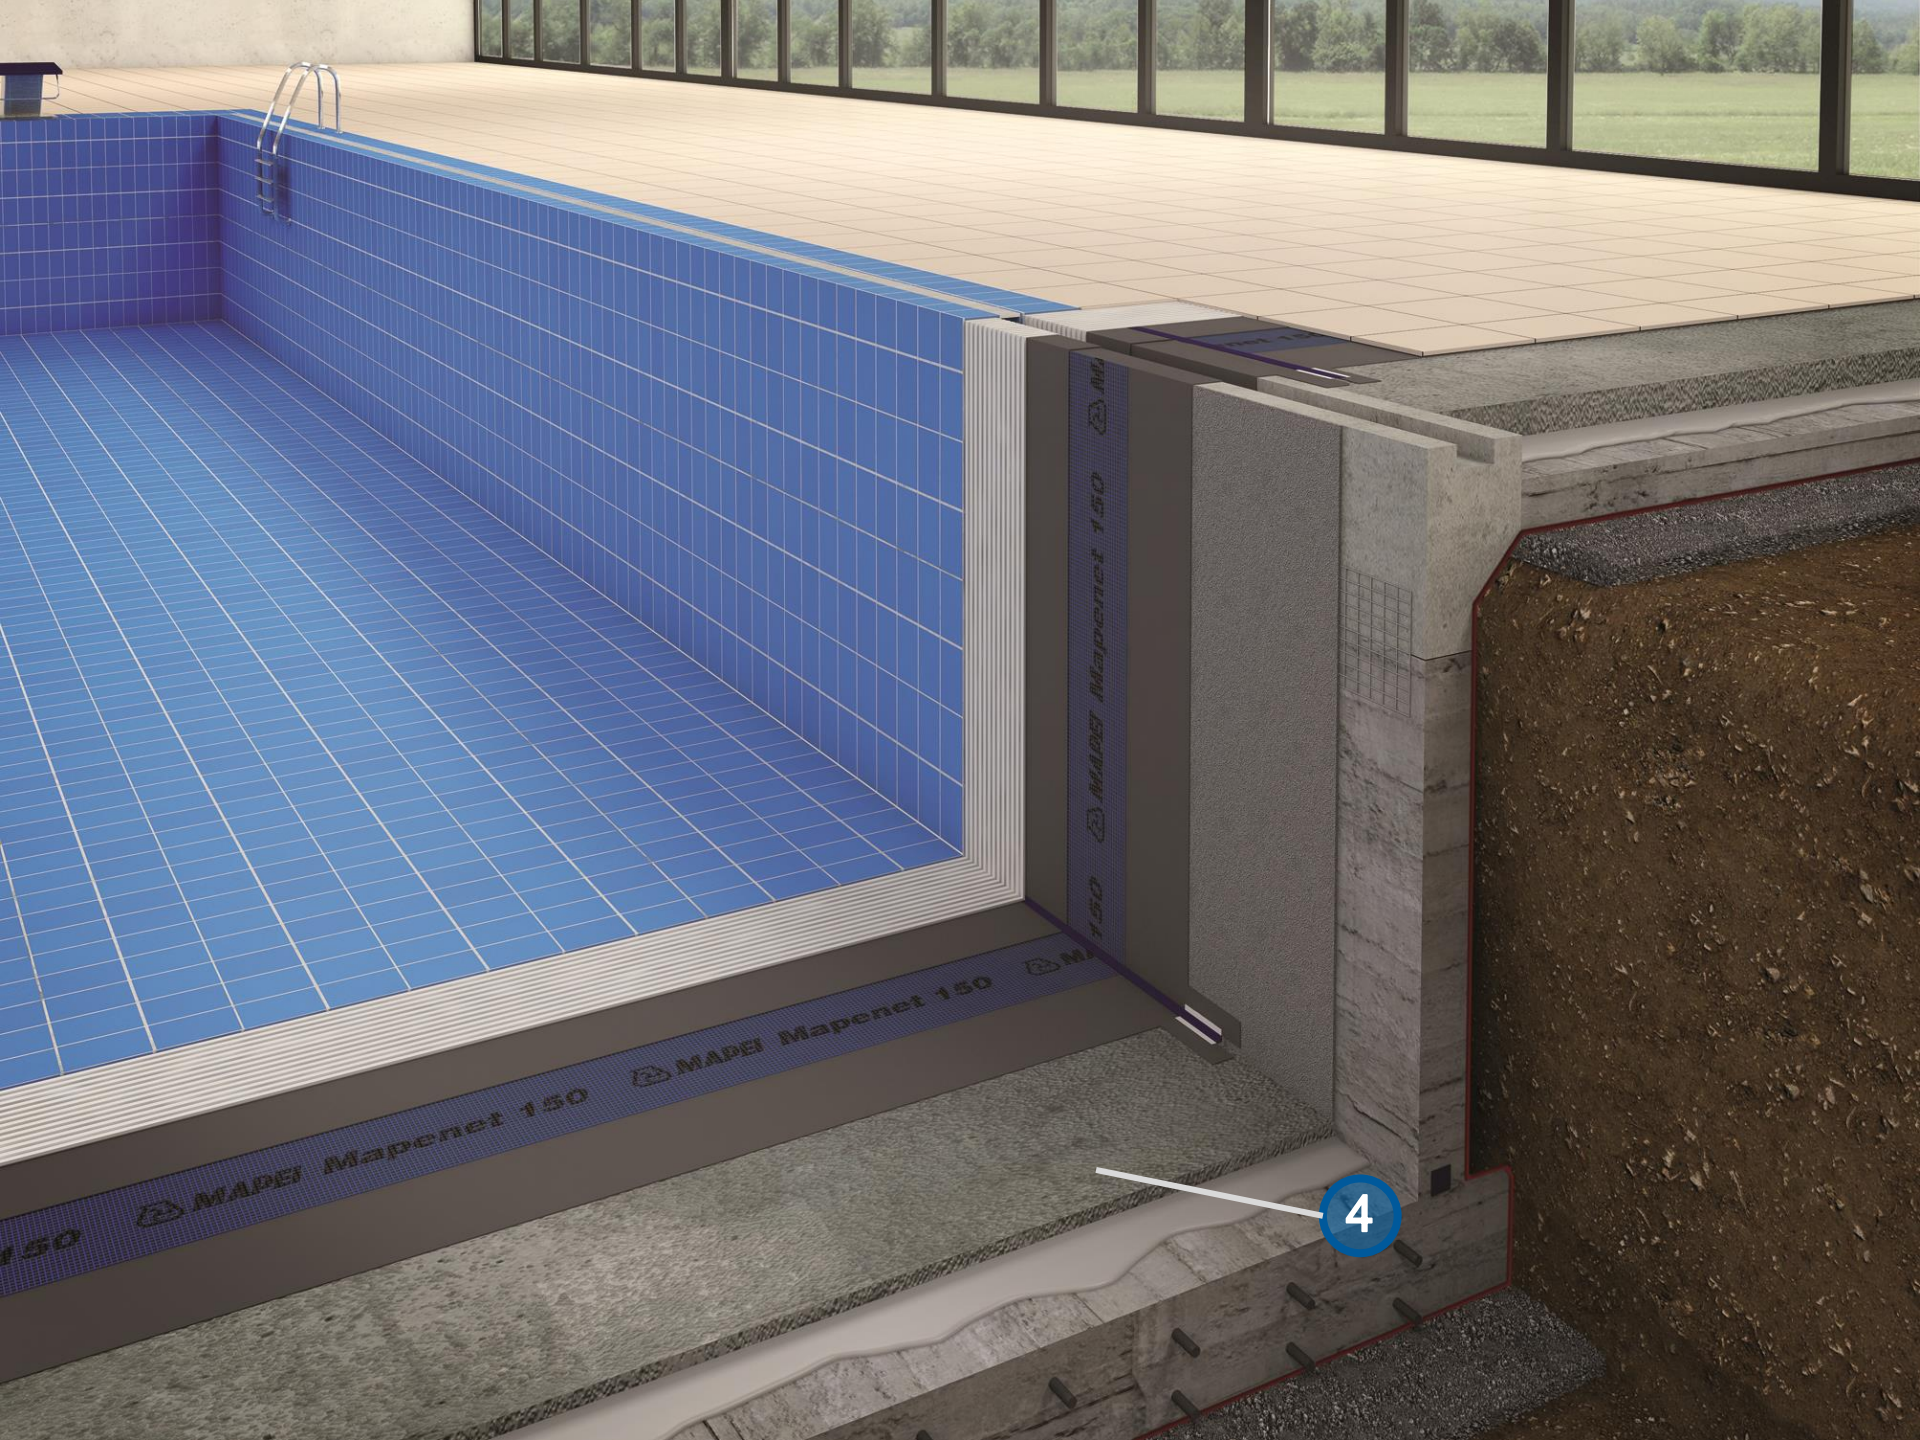

For monolithic stalks it can be used as glue.  
(cement + water + PLANICRETE)

It is used to obtain high strength cement based screeds.

in case of  
25 kg, 10 kg, 5 kg  
buckets and  
12 x 1 kg packages

## MAPECEM PRONTO (27.586/MK)

# Mapecem Pronto

## MAPECEM PRONTO (27.586/MK)

Pre-blended for screed, rust control, quick-setting and drying mortar

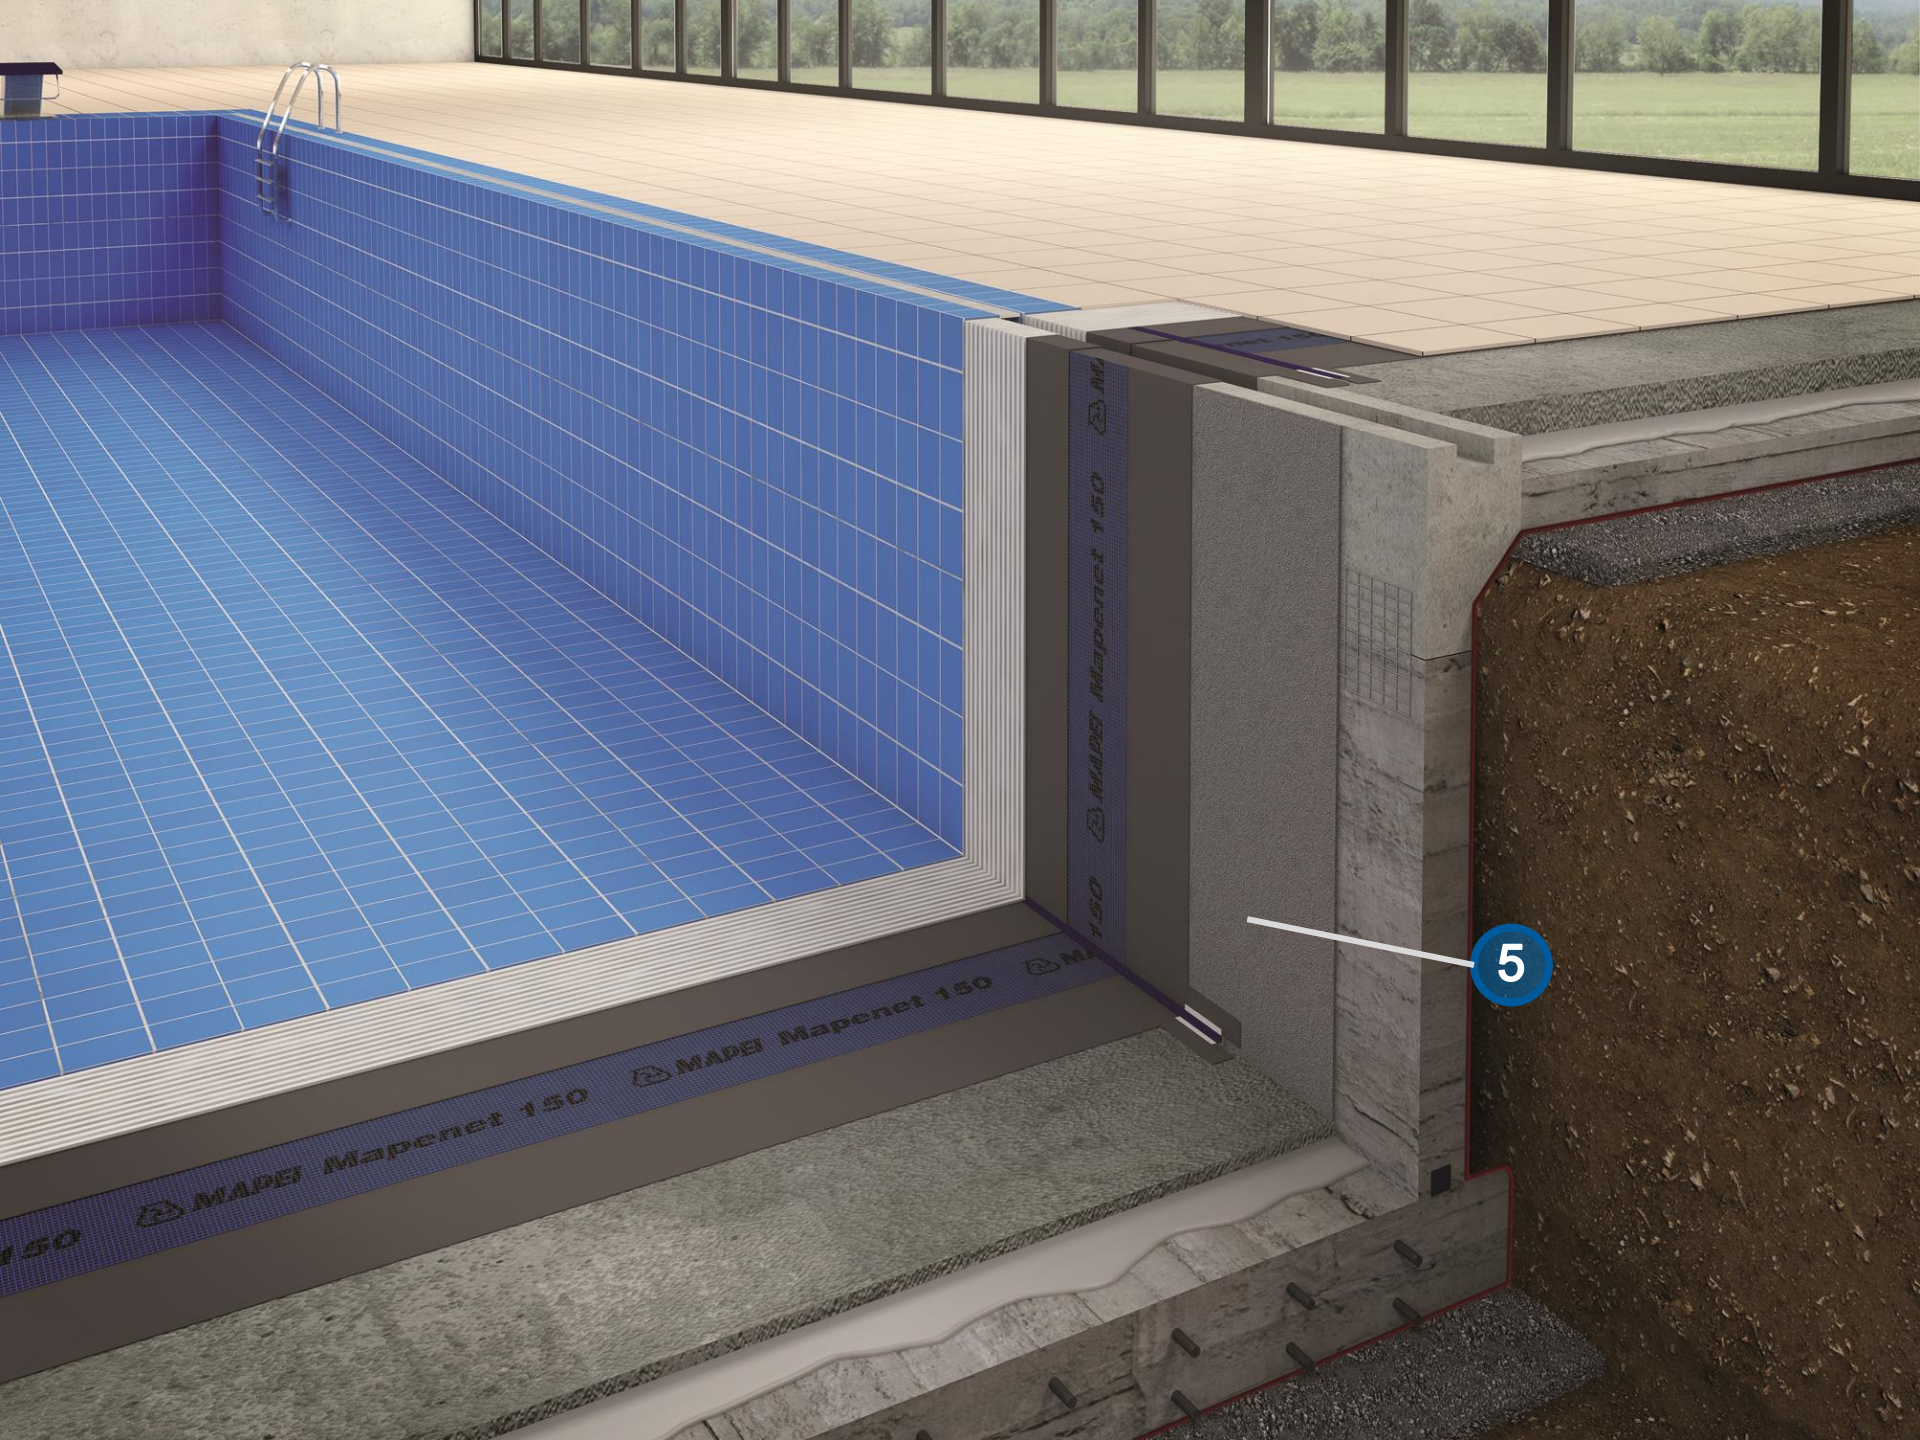

It's like traditional screeds in terms of application and usage.

Quick set-up feature allows operation over 3 hours (ceramic tile).

In case of 25 kg bag.

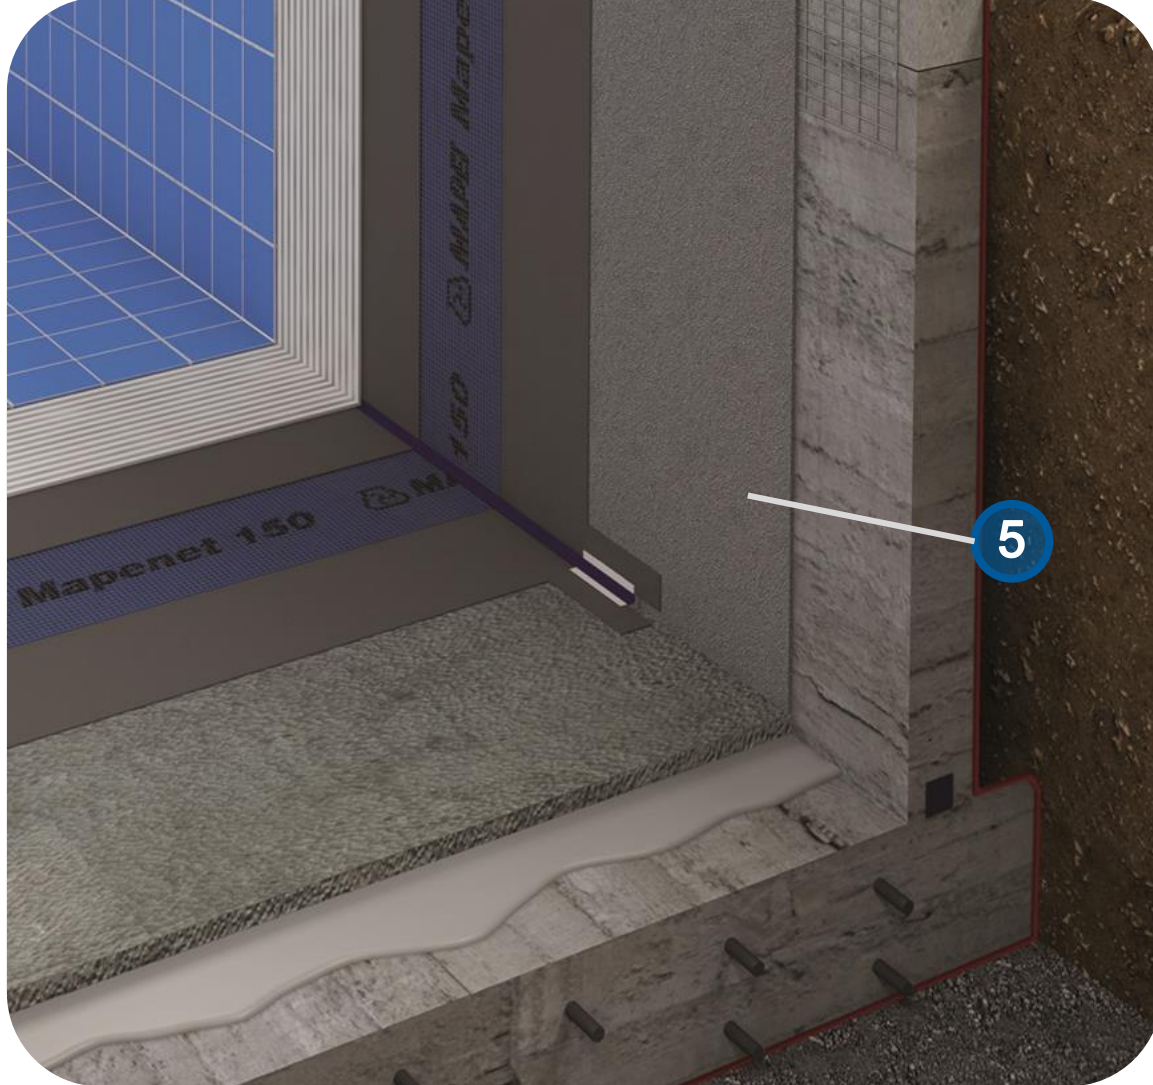

5

## NIVOPLAN PLUS (27.581/MK)

## NIVOPLAN PLUS (27.581/MK)

 **MAPEI**  
**Nivoplan  
Plus**

**İç ve dış mekanlardaki  
duvar, tavan ve  
zeminler için çimento  
esaslı tesviye harcı**

## NIVOPLAN PLUS (27.581/MK)

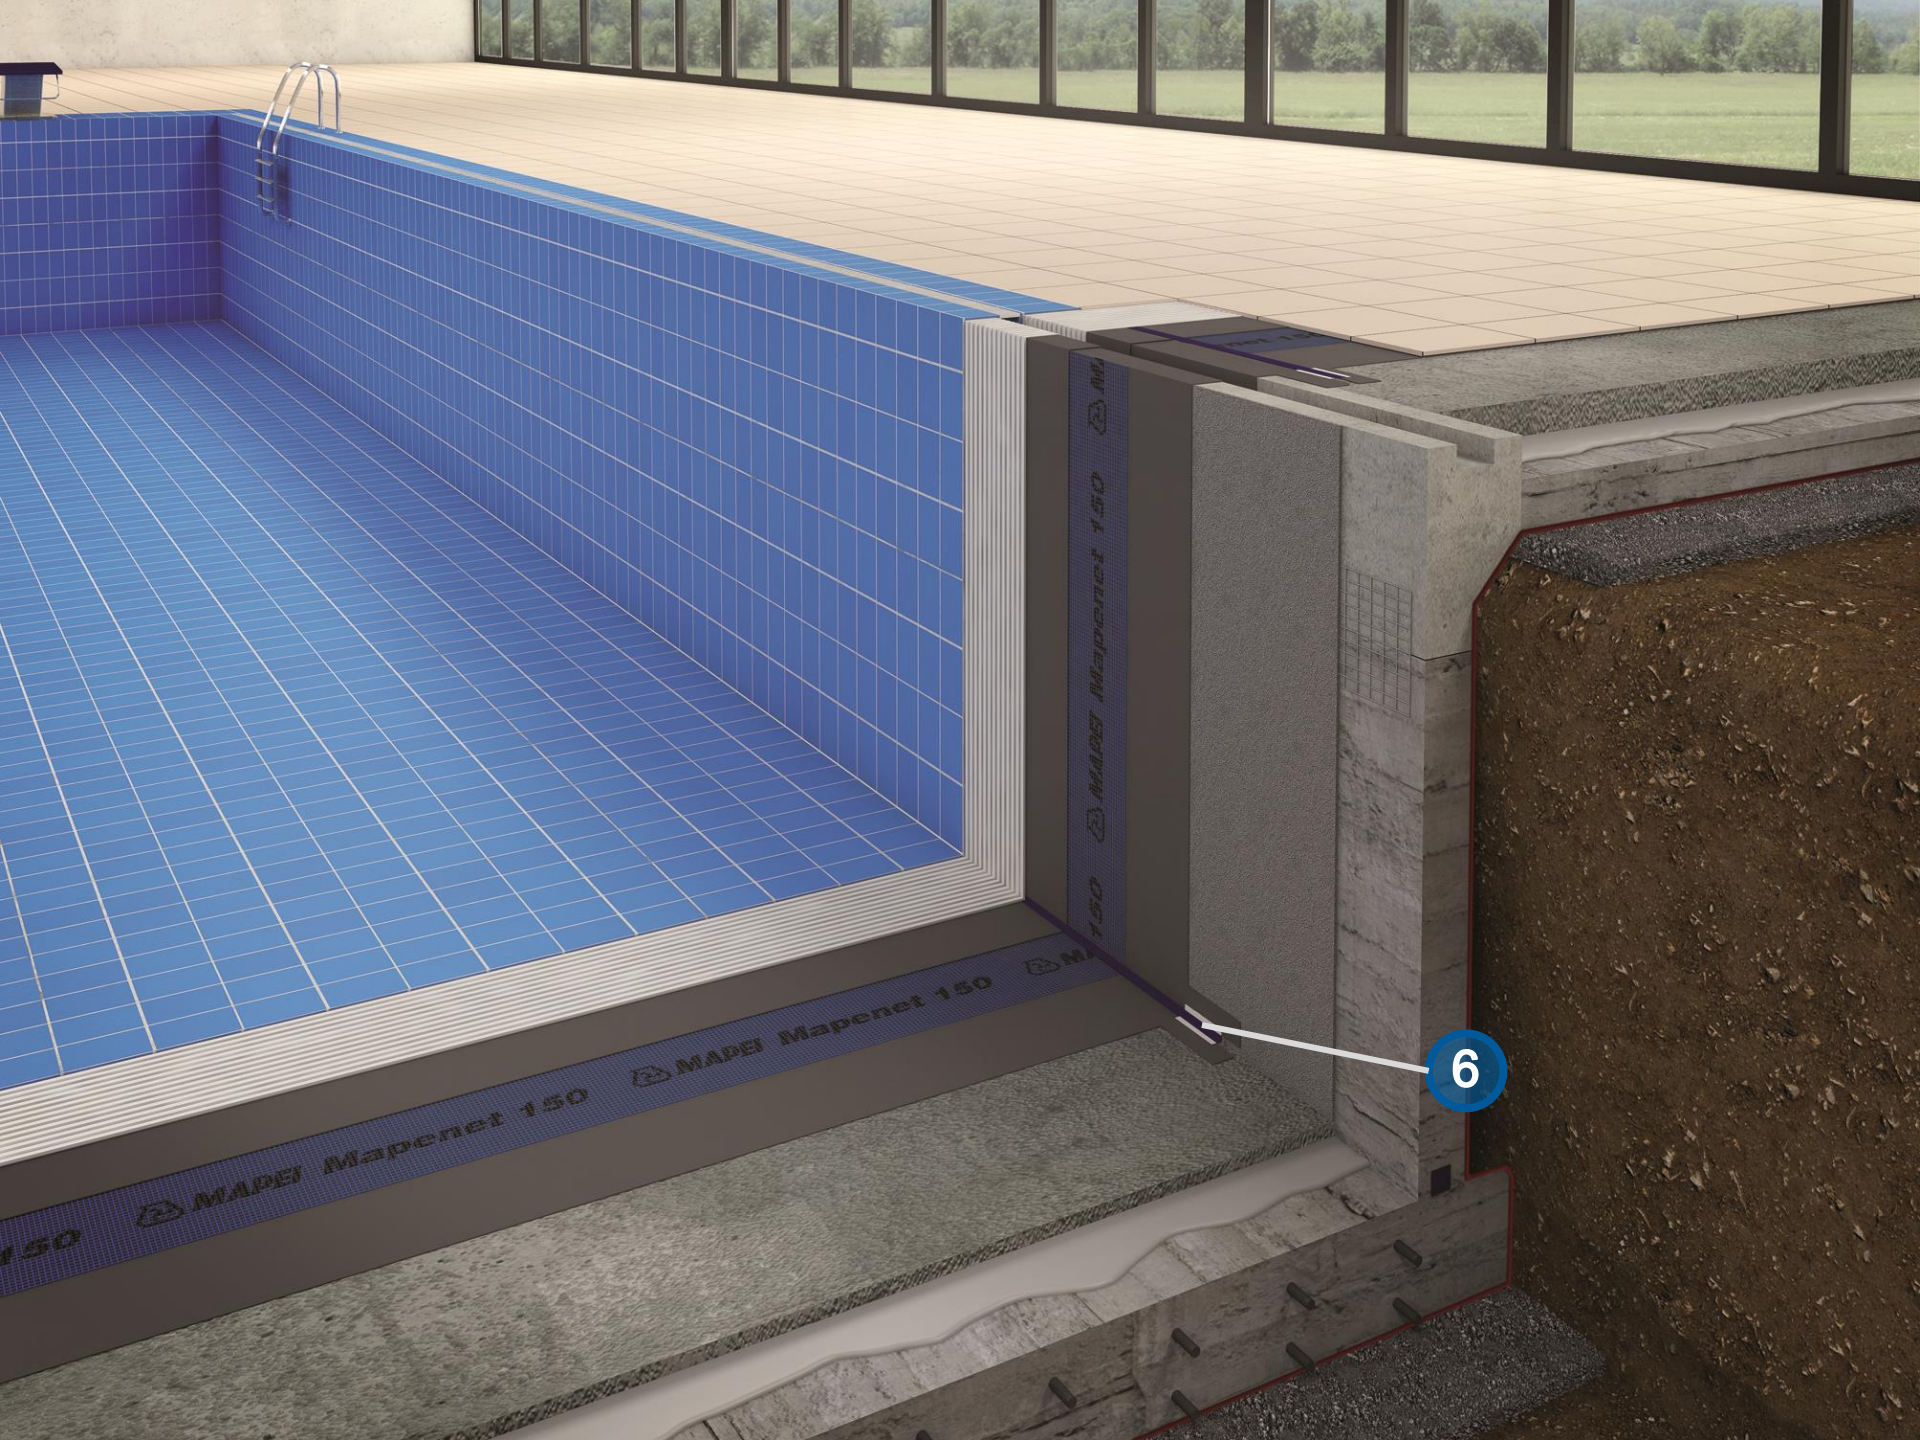

Cement based leveling mortar for walls, ceilings and floors in interior and dental spaces

It's used with PLANICRETE reinforced to make thin cigarettes up to 10mm

Prior to the application of waterproofing and ceramic coating, concrete is used for levelling concrete surfaces in swimming pools

In case of 25 kg bag

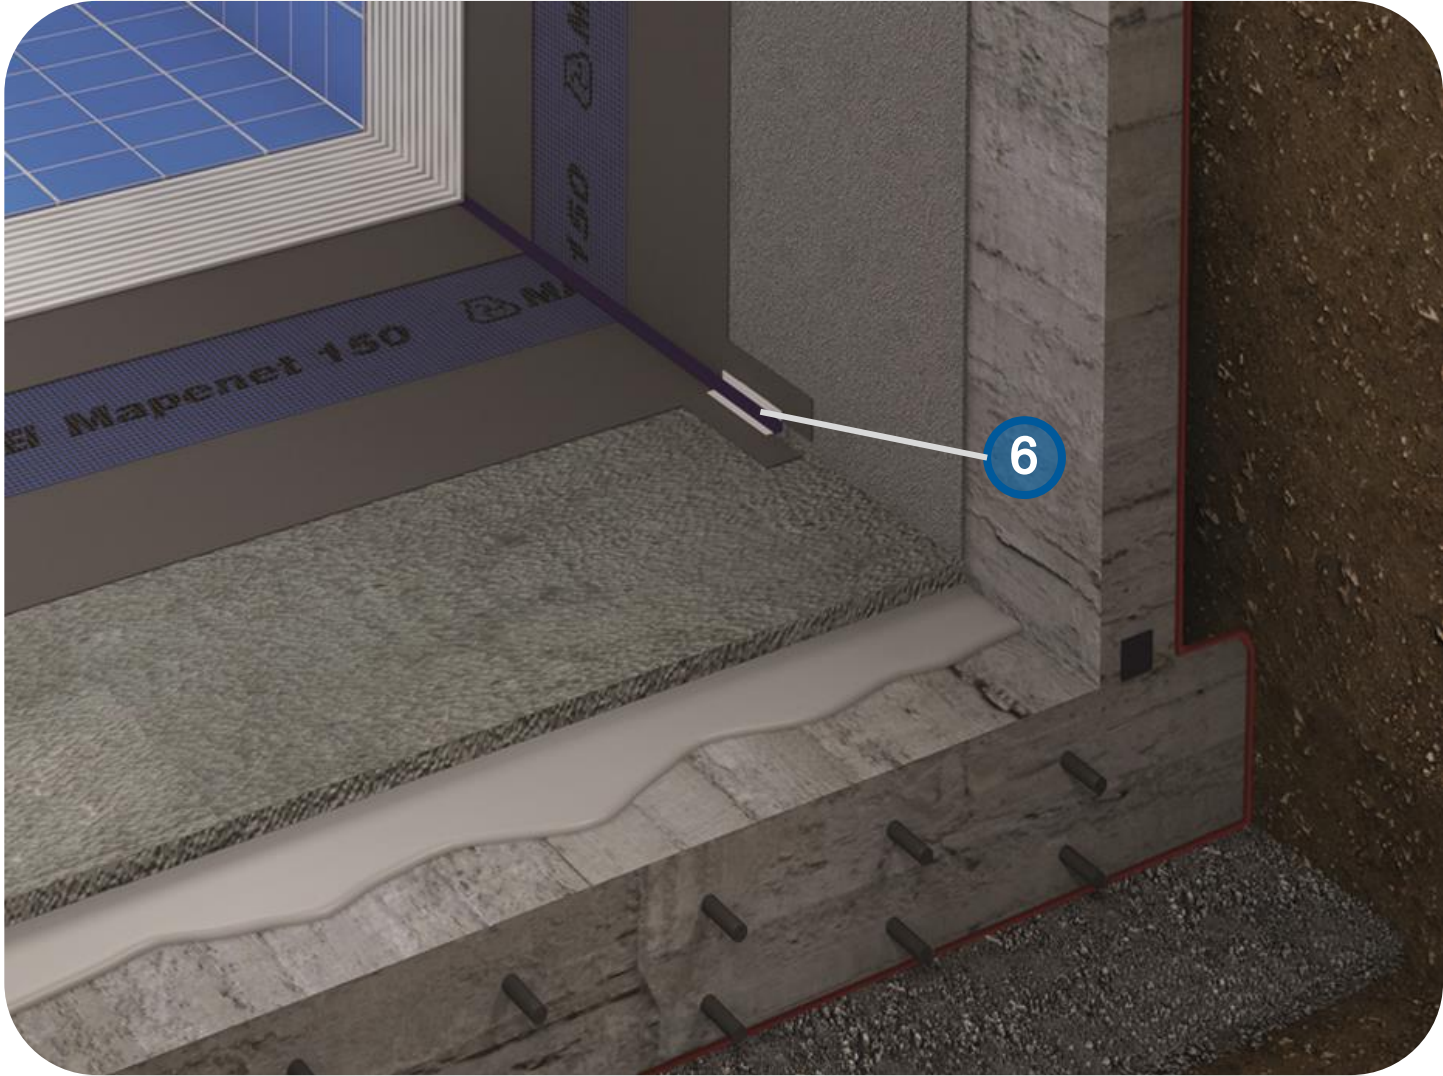

6

# MAPEBAND (04.734/E9)

# Mapeband

**Rubber tape with  
alkali-resistant fabric  
for cementitious  
waterproofing systems  
and liquid membranes**

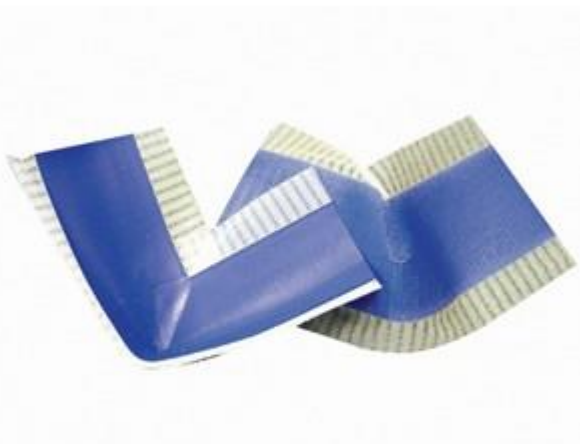

şuq llduq wempruqz

## MAPEBAND (04.734/E9)

MAPELASTIC series cement based waterproofing products suitable for use, alkali-resistance imbedded marble band

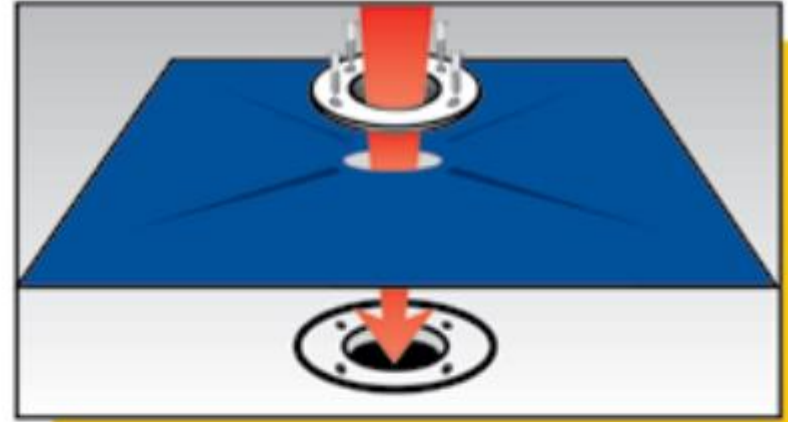

It provides continuous insulation with parts manufactured in different shapes for different details

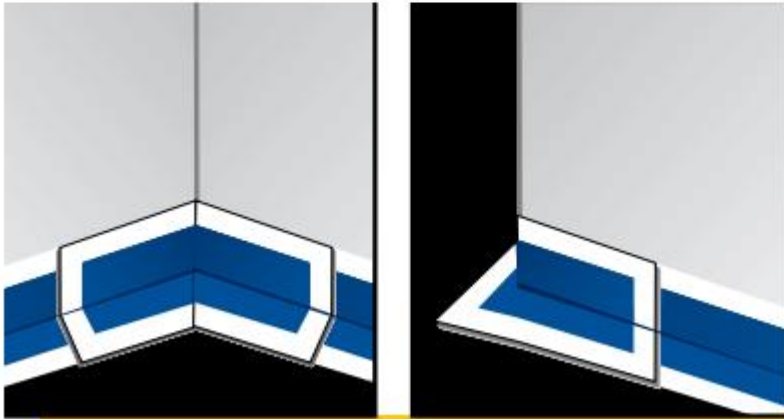

# MAPEBAND

*Positioning of Mapeband inside an expansion joint*

*Positioning of gasket for flexible waterproofing and sealing of drain outlets 400 mm x 400 mm*

*Positioning of corner 90°*

*Positioning of corner 270°*

*Positioning of special T profiles*

*Positioning of special cross profiles*

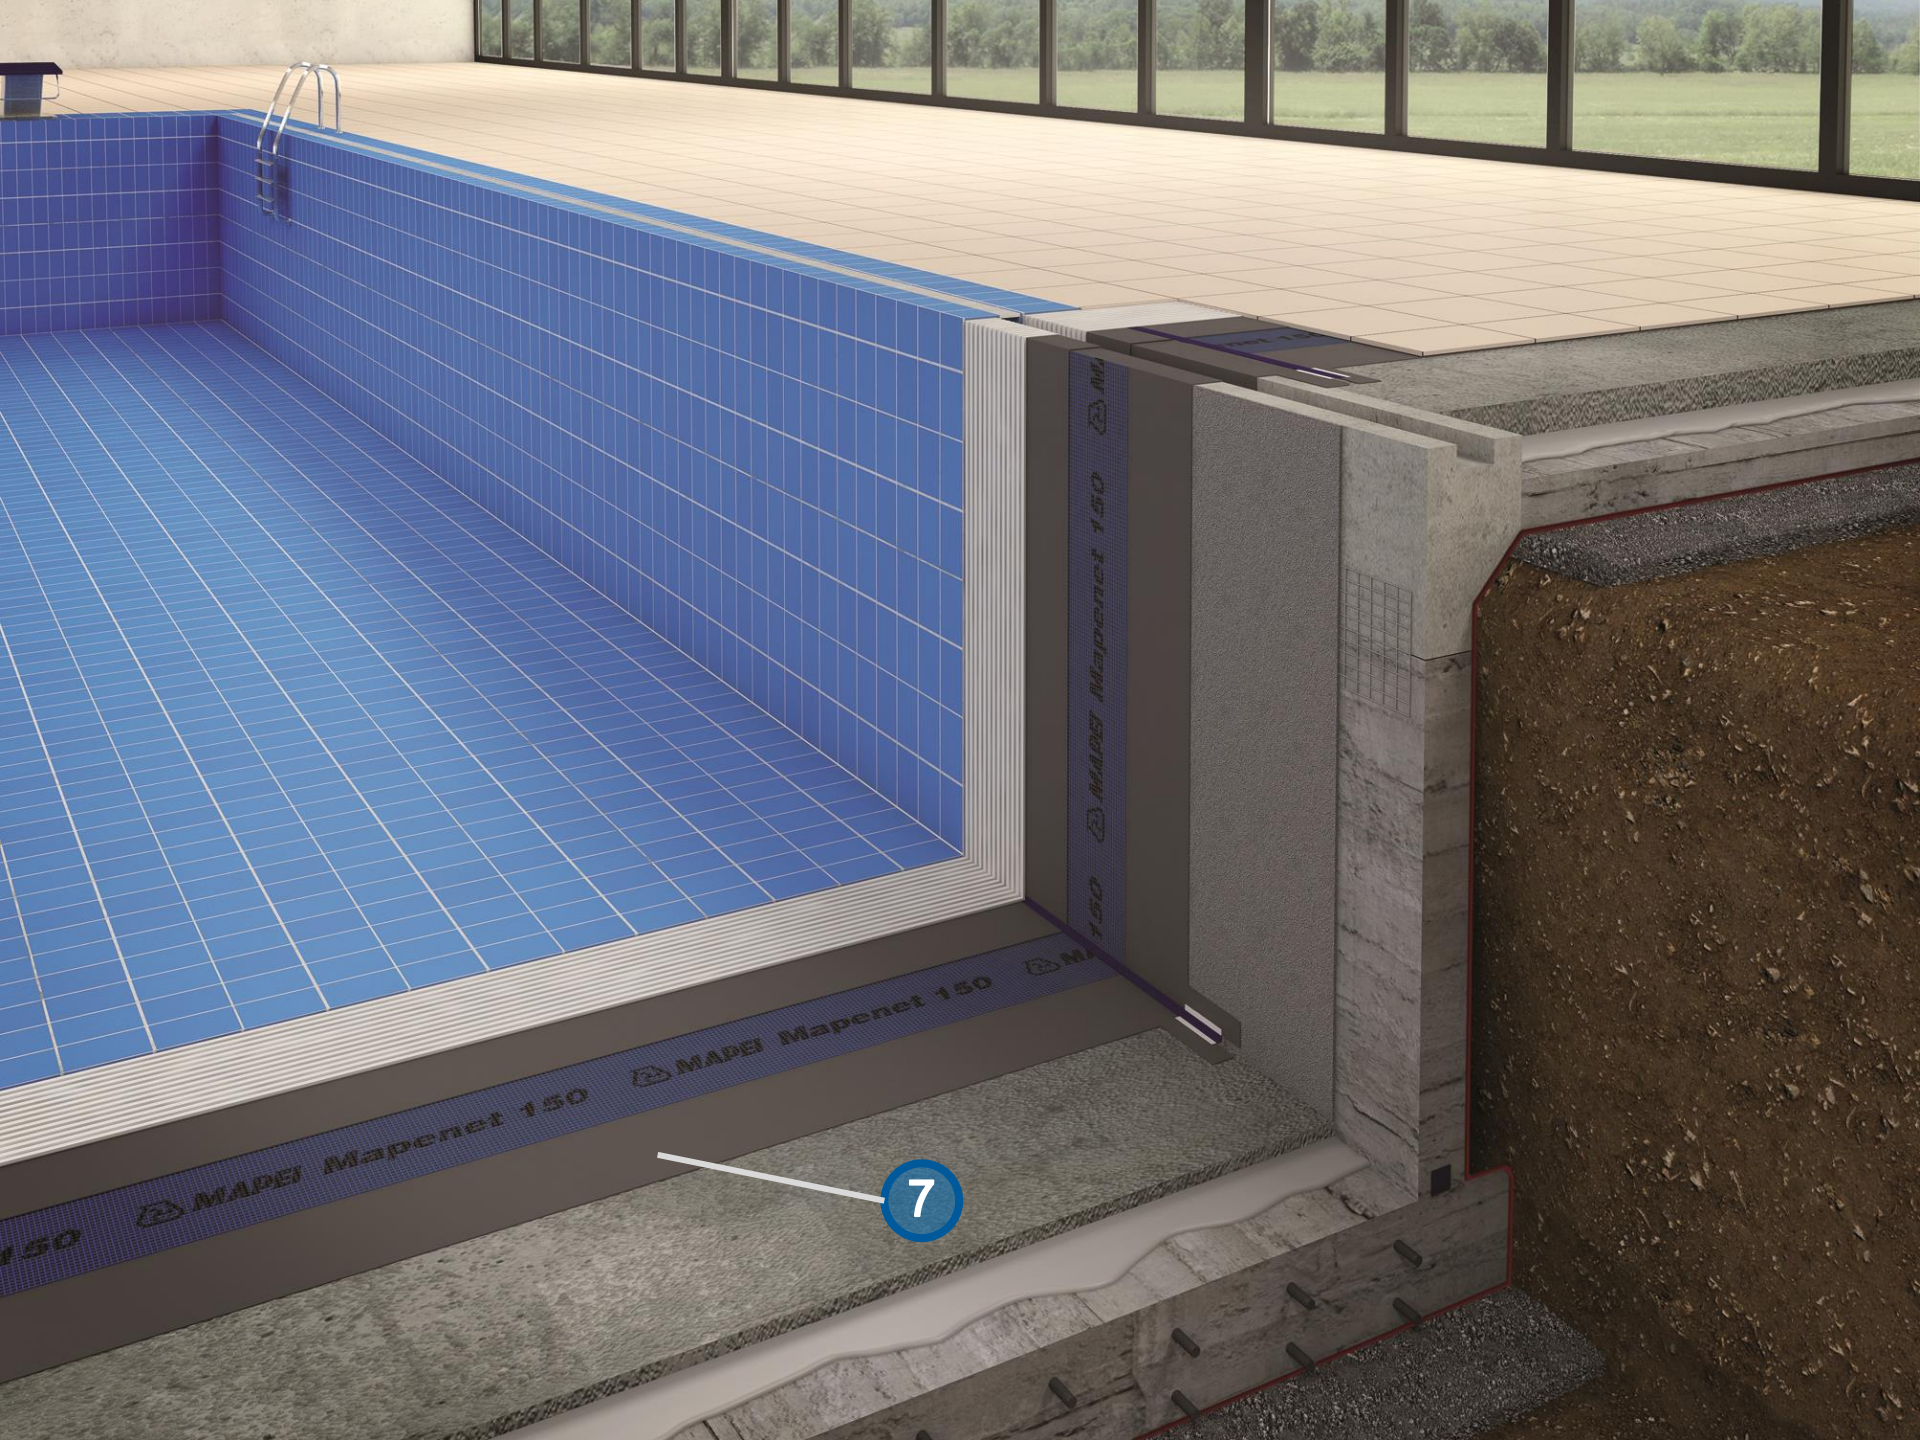

# MAPEBAND

## Application Details

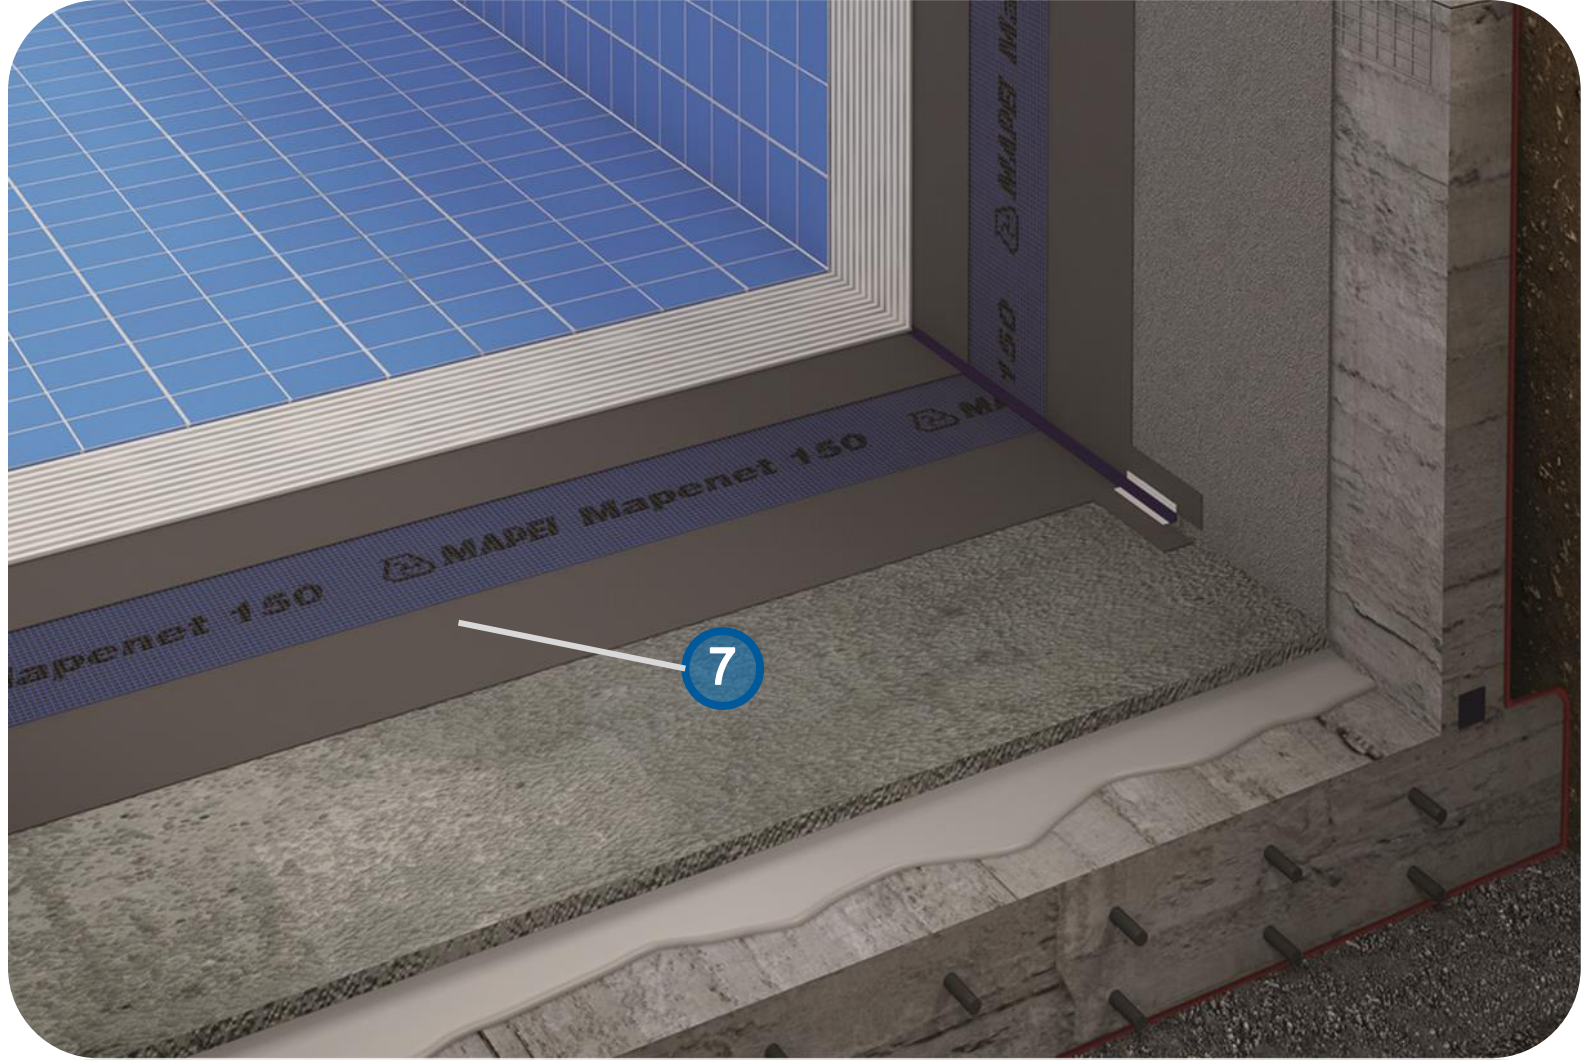

7

# MAPELASTIC (Y.19.085/006)

## MAPELASTIC (Y.19.085/006)

UV-resistant, cement-based, two-component waterproofing membrane capable of bridging cracks in the order of 0.8 mm, maintaining flexibility even at 20 C

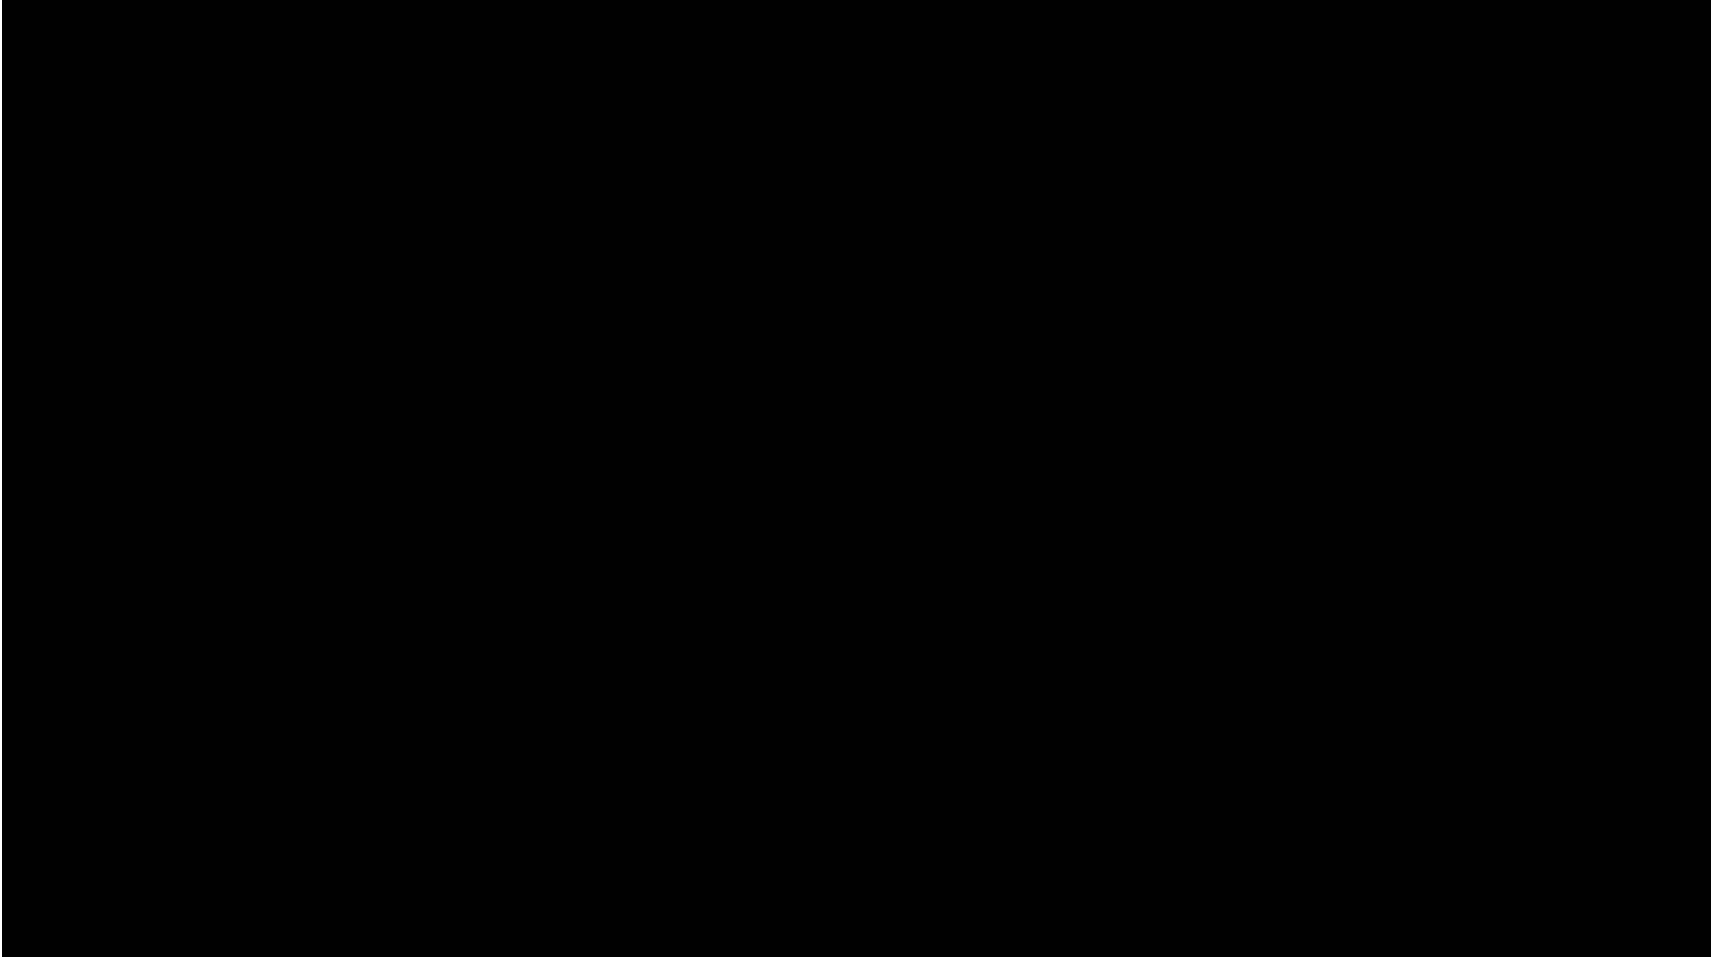

Concrete is protected by the resistance against harmful effects of chlorinated compounds and carbon dioxide.

In case of  
24 kg + (B) 8 kg  
32 kg sets

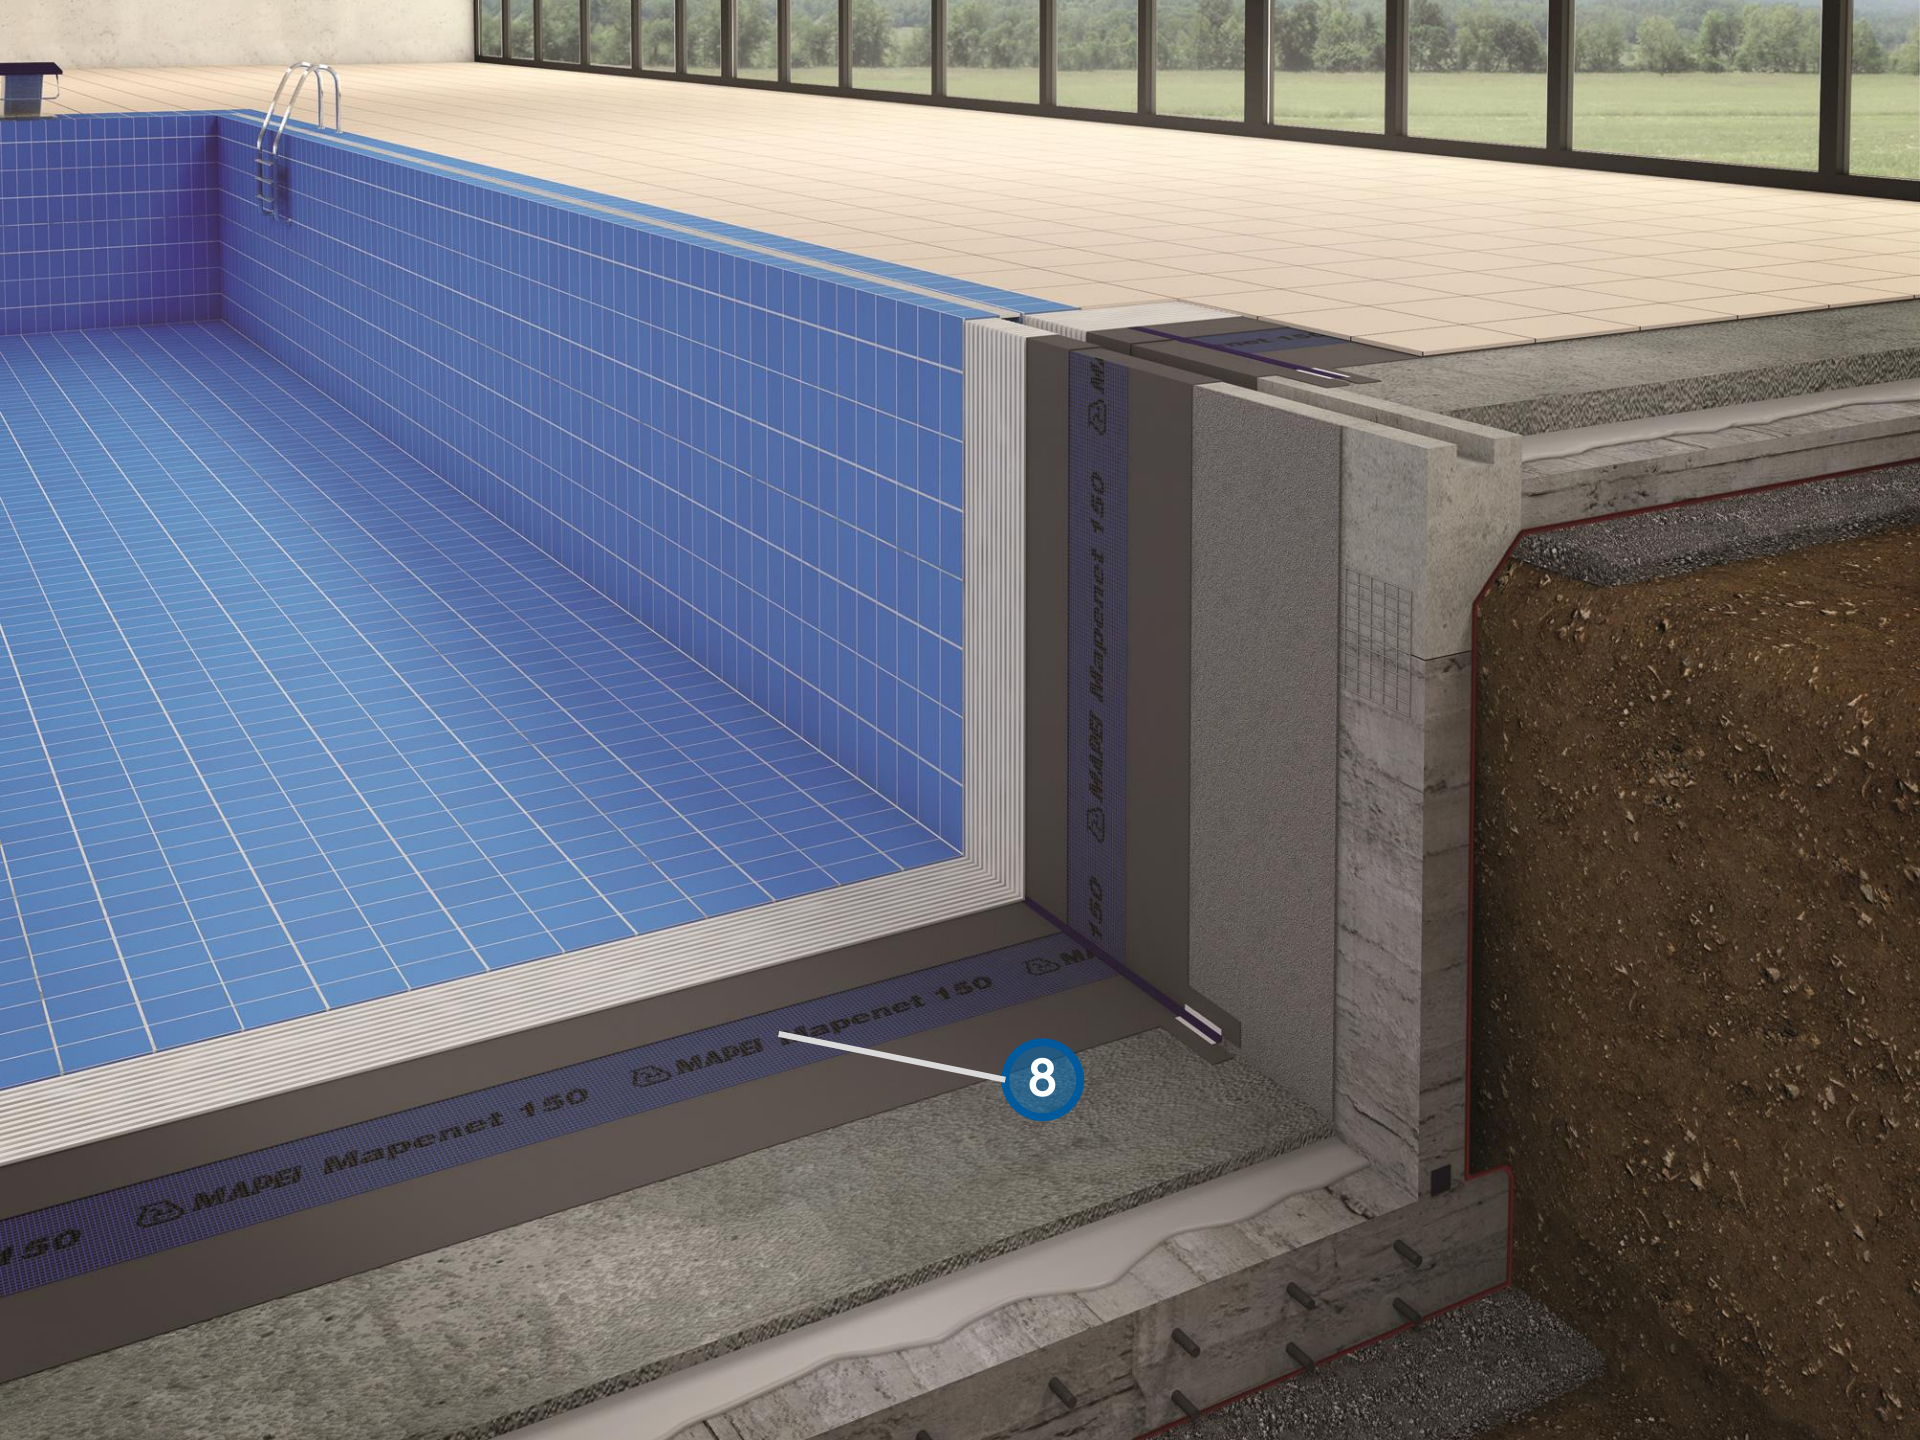

It is suitable for application on existing ceramic coatings, and does not require destruction

## MAPELASTIC (Y.19.085/006)

8

# MAPENET 150 (Y.19.085/006)

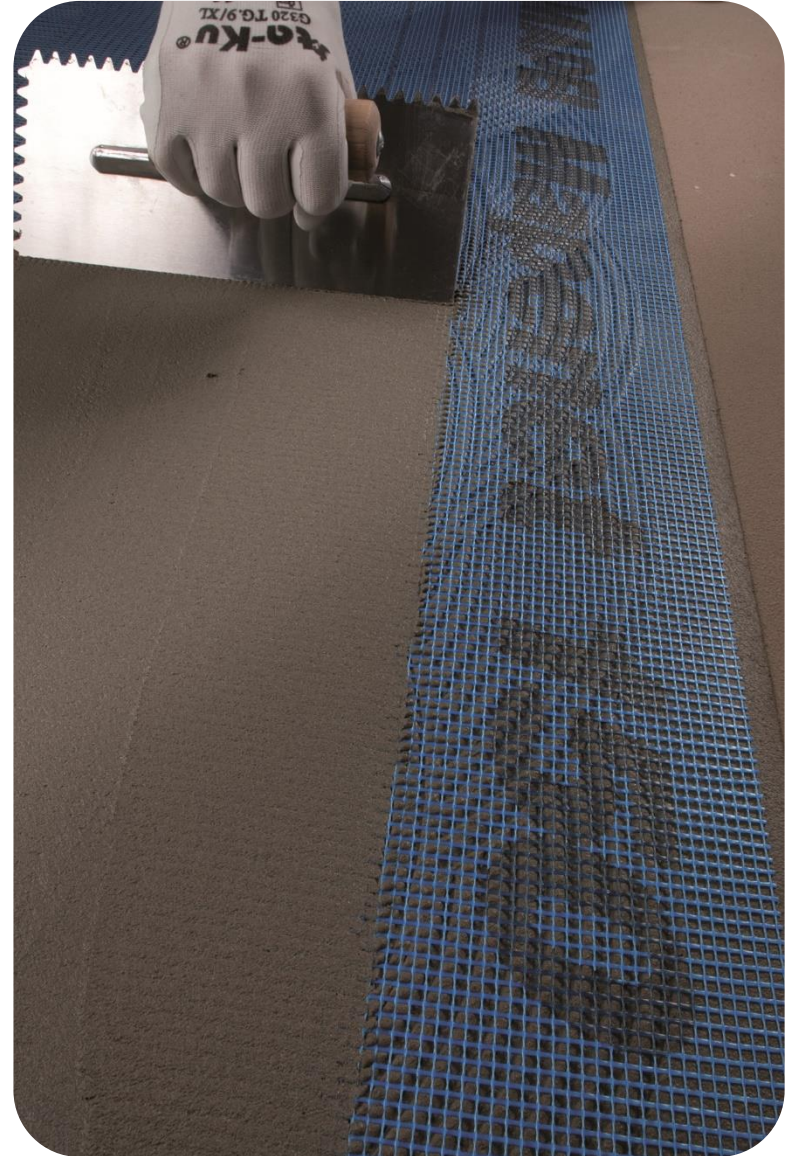

## MAPENET 150 (Y.19.085/006)

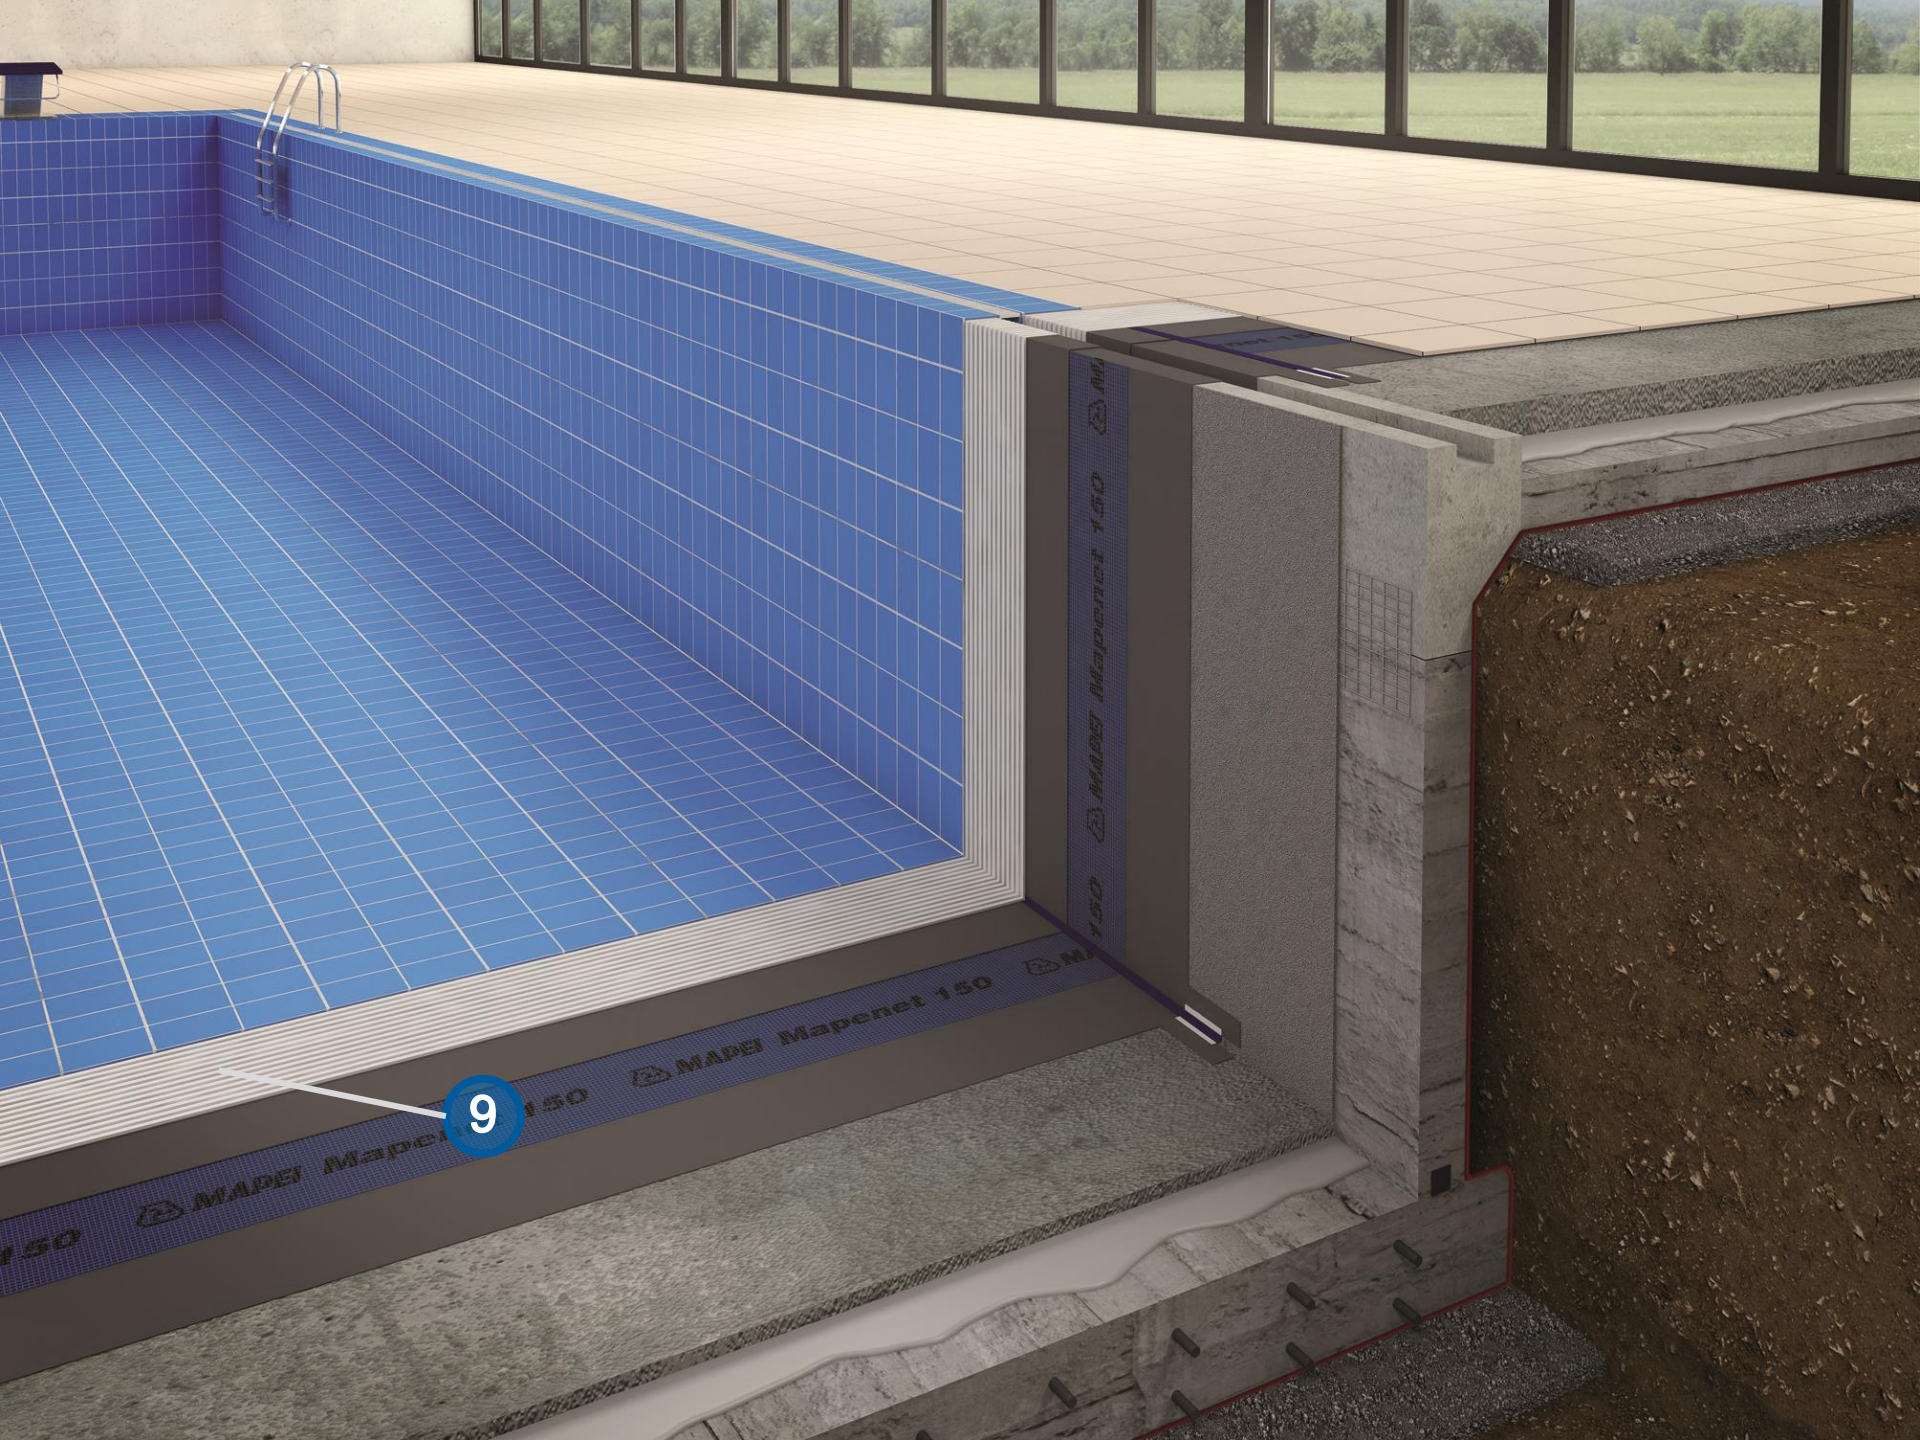

Alkali resistant, fiberglass mesh. When used with mapelastik, it distributes the cracks that will form on the membrane, giving the membrane flexibility

During the application, joints such as joints, corner joints etc. should be used when it comes to places

In case of  
1 m x 50 m rolls

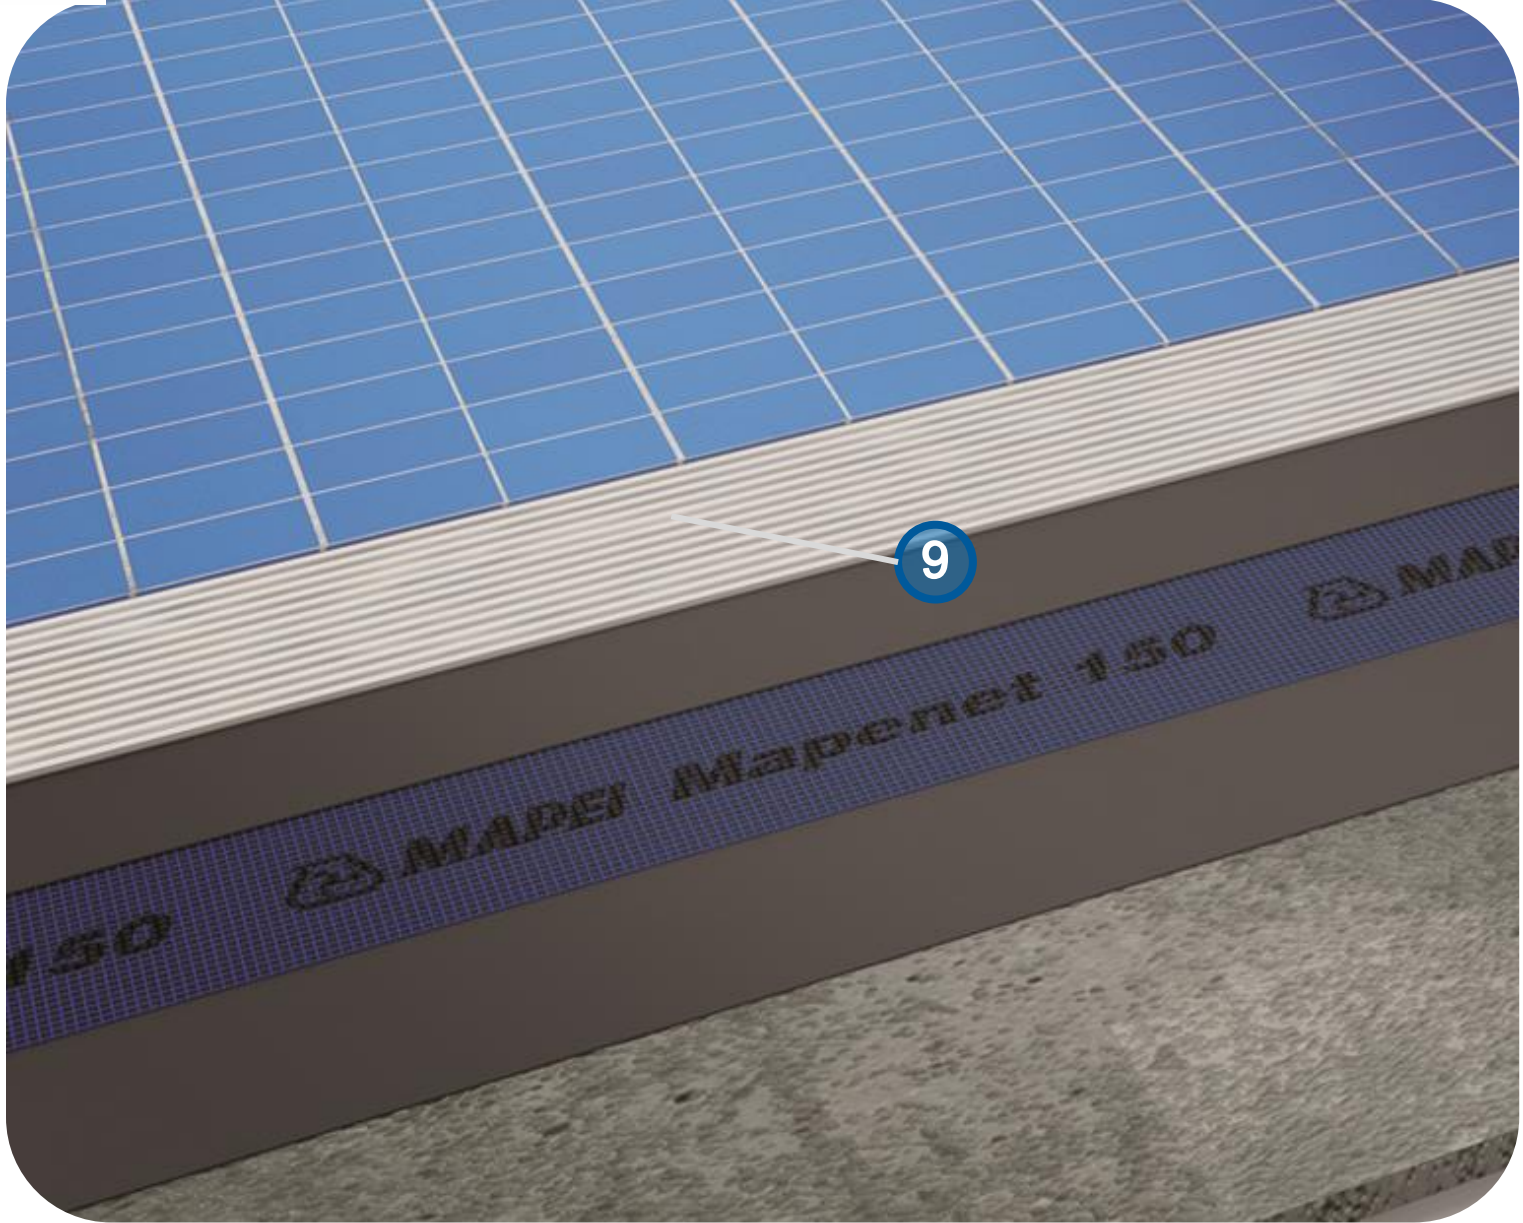

9

MAPEI Mapenet 150

MAPEI Mapenet 150

# KERAFLEX MAXI S1 (04.380/008)

**Keraflex  
Maxi S1**

## KERAFLEX MAXI S1 (04.380/008)

C2TES1 class ceramic and natural stone  
builder

Class Features:

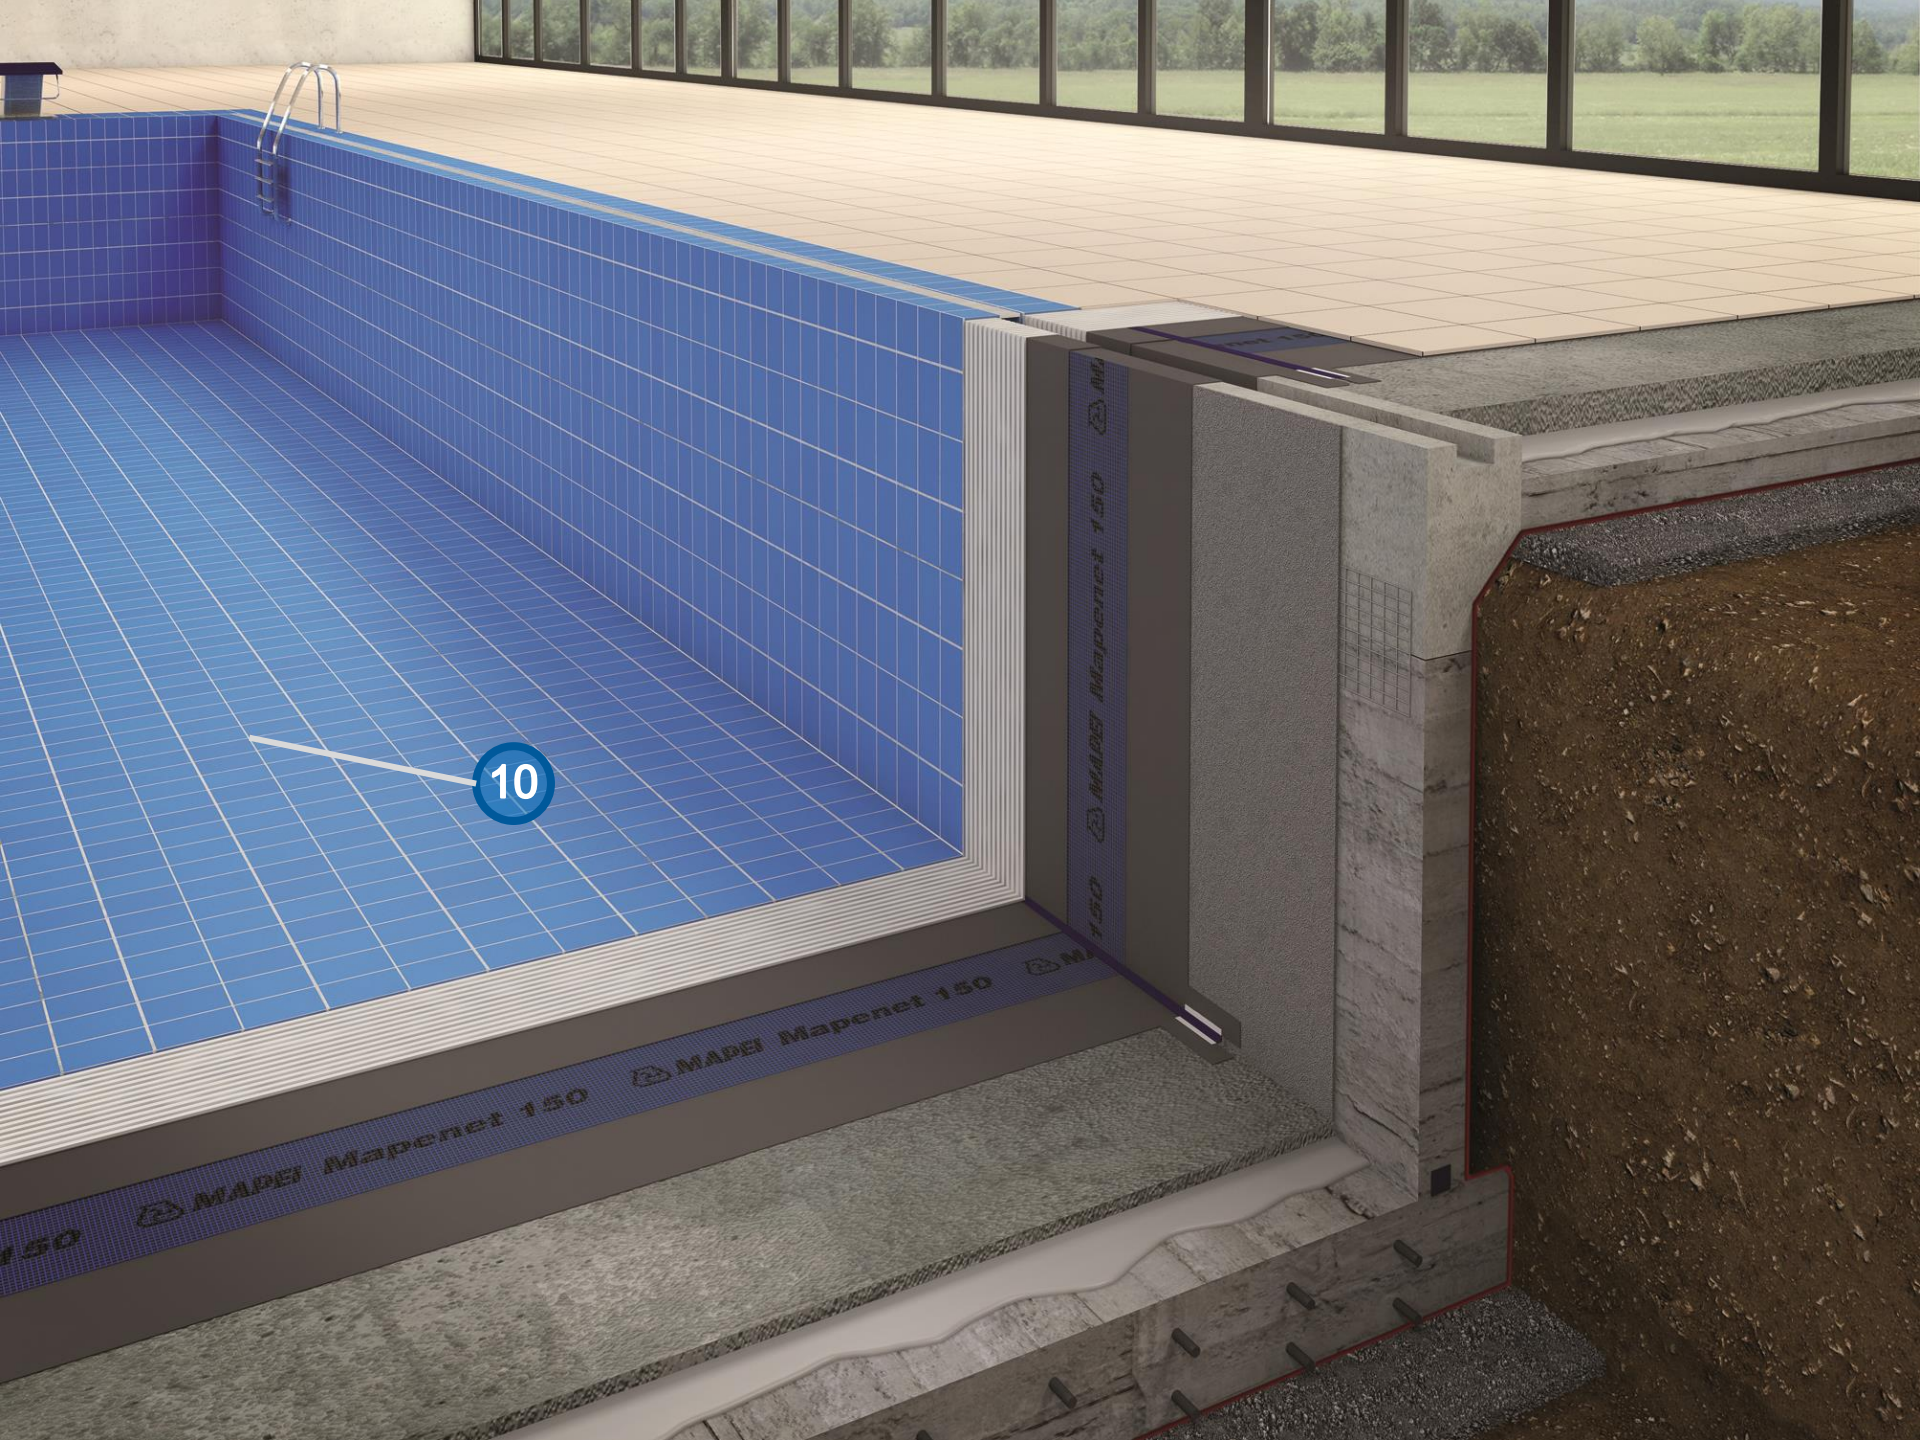

High Performance  
Extended waiting time  
Non-slip vertical  
Flexible  
Cement Based

It can be applied up to 15mm thickness

In case of 23 kg (white) and  
25 kg (grey) bags

10

MAPEI Mapenet 150

MAPEI Mapenet 150

# ULTRACOLOR PLUS (04.380/054)

## ULTRACOLOR PLUS (04.380/054)

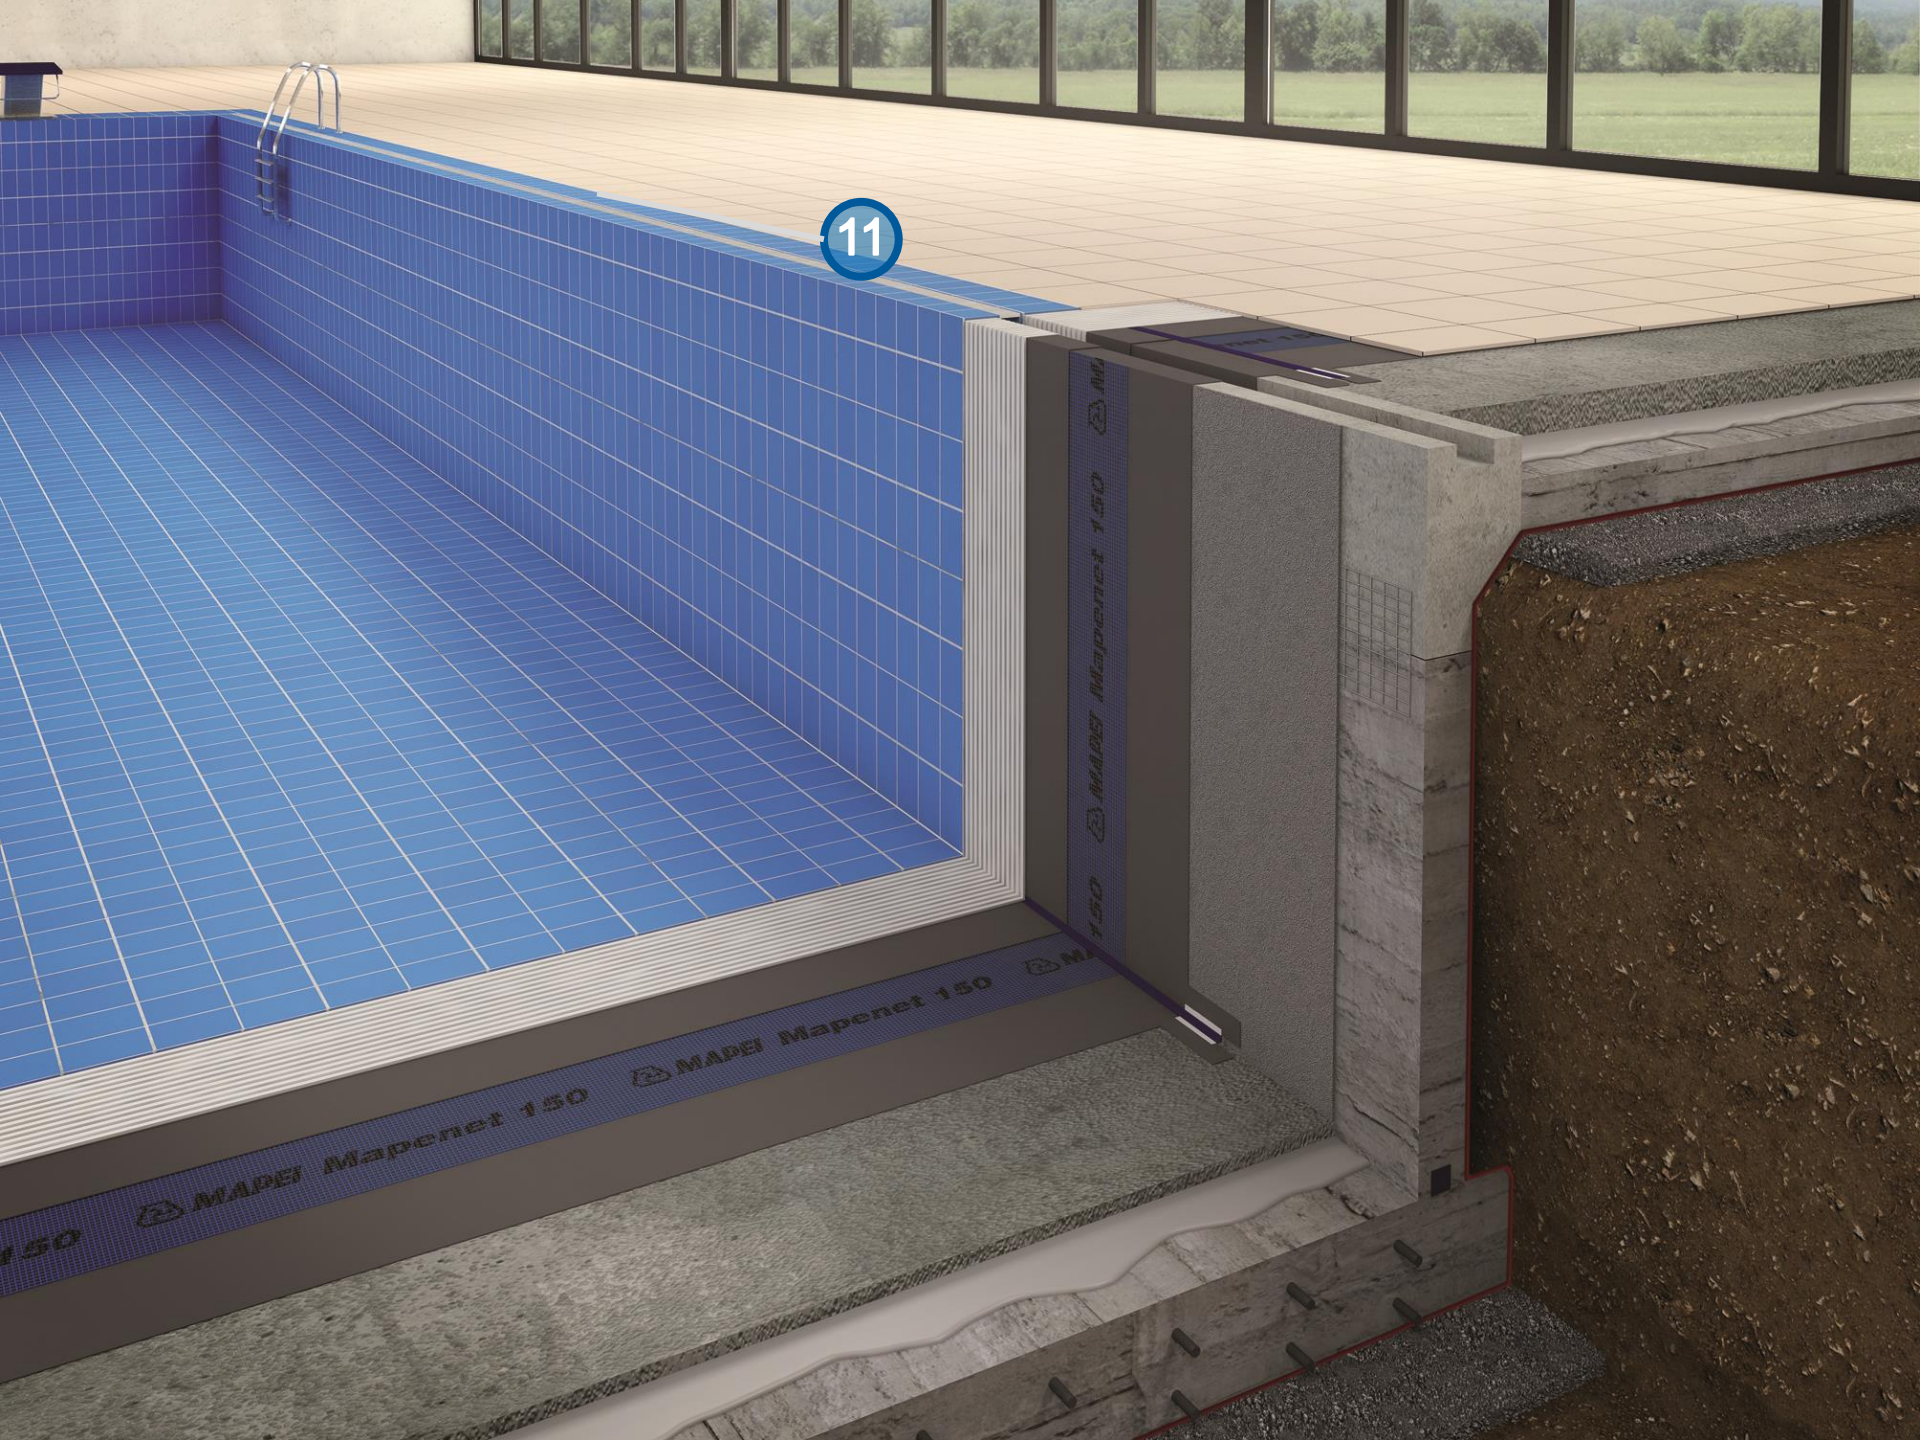

- Reduced water absorption
- Abrasion - resistant
- Preventing mold and mushroom (BioBlock)
- Non-Efloresans
- Water- repellent (Drop Effect)
- Fast - setting
- 30 different color

CG2WA synonymous cement based grouting

In case of 5 kg bags

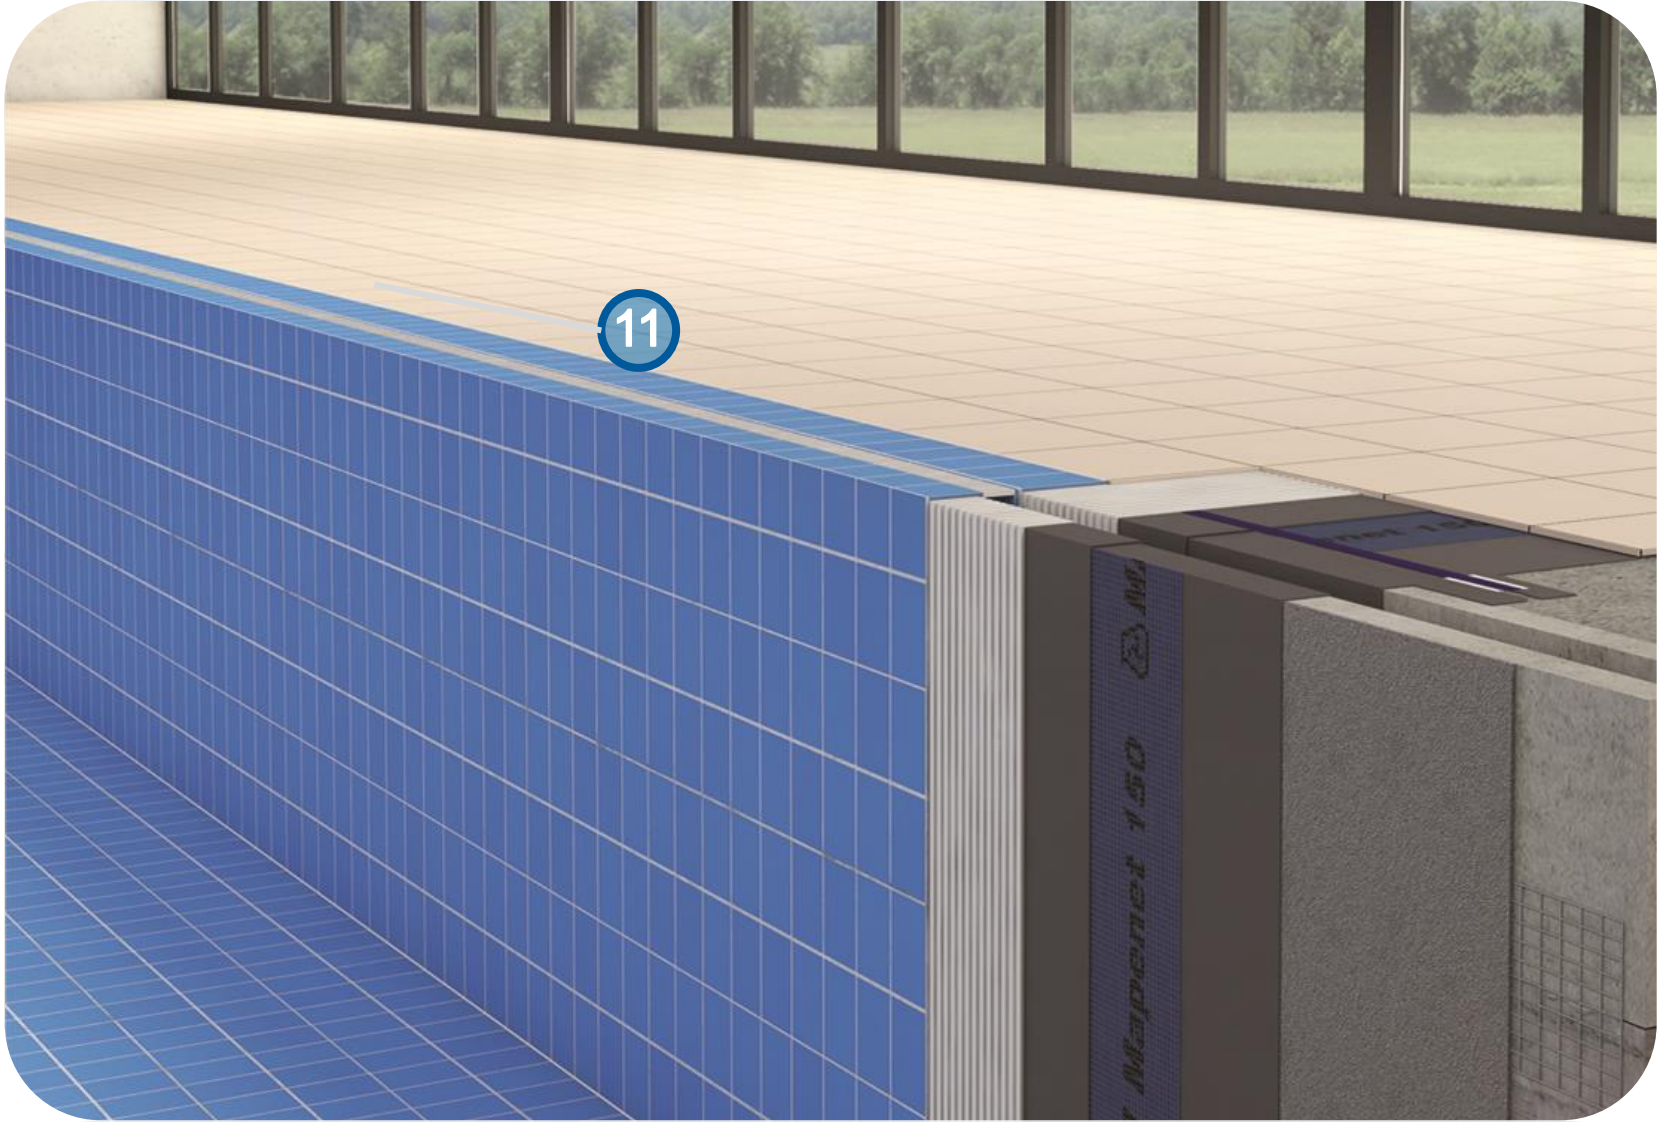

11

MAPEI Mapenet 150

MAPEI Mapenet 150

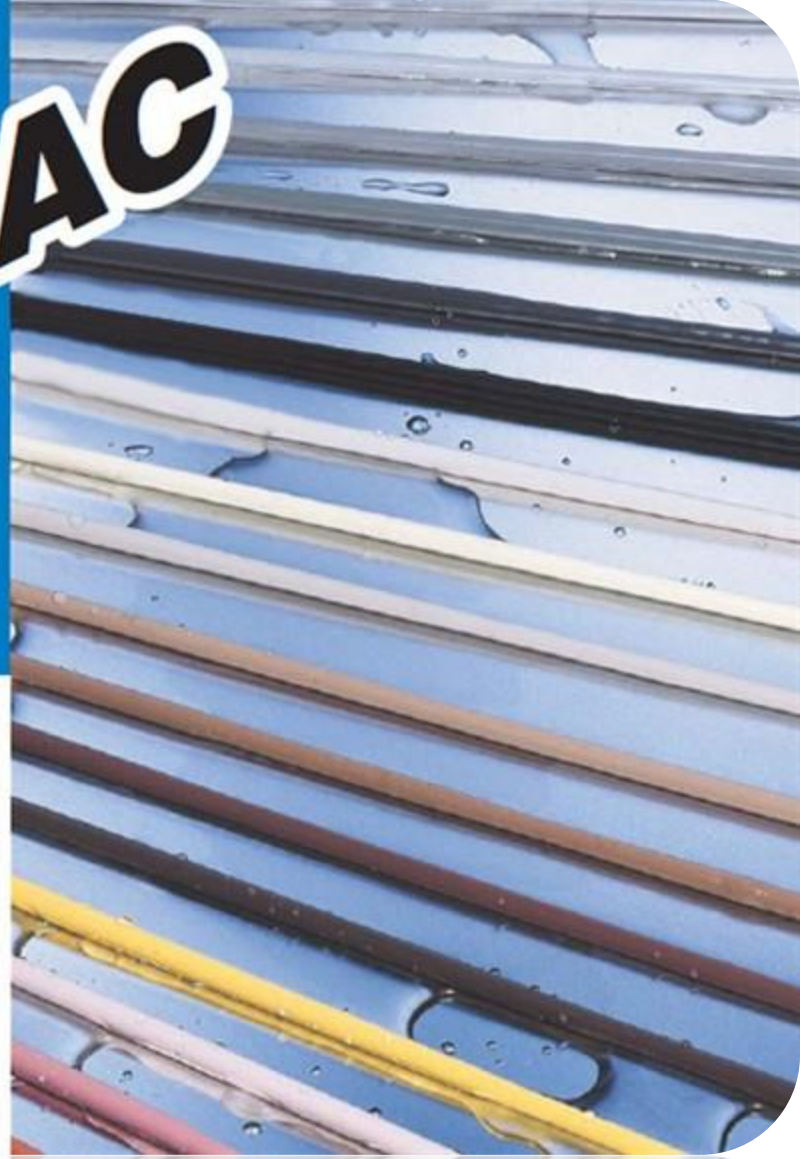

# MAPESIL AC

# Mapesil AC

## MAPESIL AC

- With BioBlock© technology
- Very low level (VOC) containing
- In the same color options as ultracolor plus

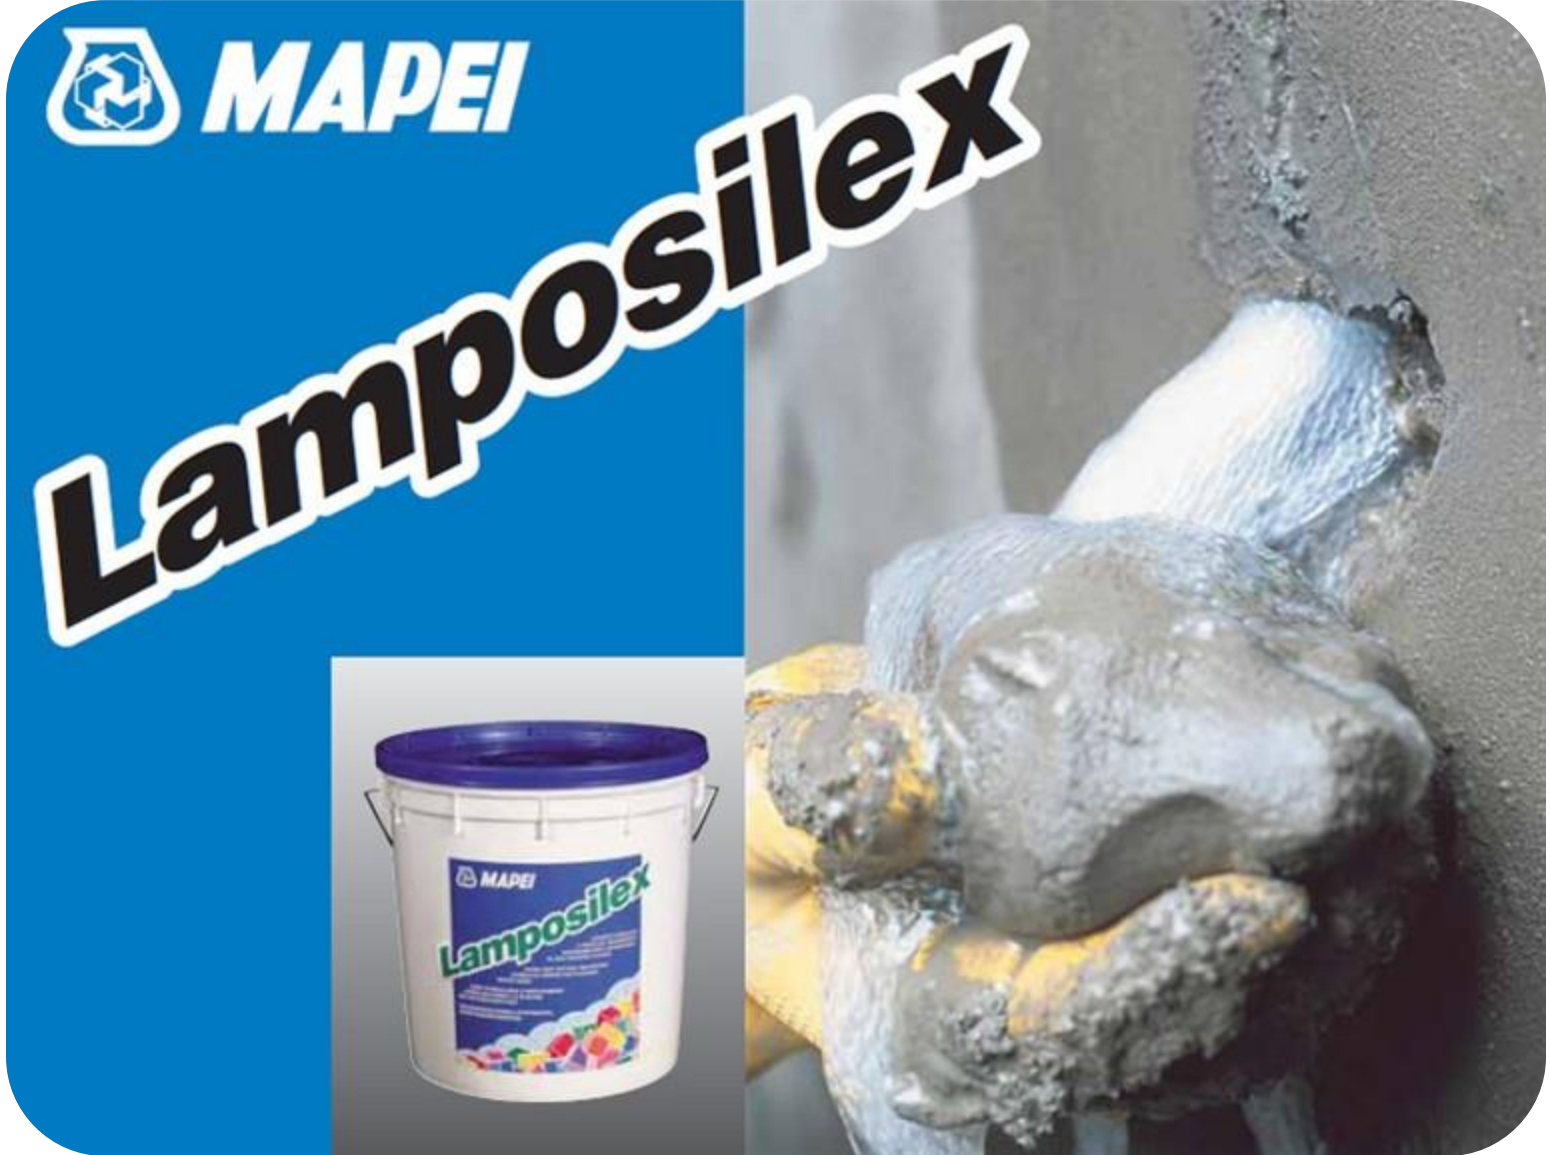

Acetic silicone mastic

In case of  
310 ml cartridge

ALSO

## LAMPOSILEX

Very quick setting, cement-based, hydraulic water tiller

In case of 5 kg buckets

# MAPEPROOF SWELL

# Mapeproof Swell

## MAPEPROOF SWELL

Single component liquid seal.

In the pipe penetration cavities  
It's used in the headlines and lighting details

In case of 320 ml cartridge

## MAPEBAND TPE (04.734/E9)

# Mapeband TPE

**TPE tape for flexible  
sealing and  
waterproofing  
expansion joints and  
over cracks subject  
to movement**

## MAPEBAND TPE (04.734/E9)

Rubber tape for insulation of dilatation and expansion joints

In case of  
170 mm x 30 m ve 325 mm x 30 m rolls

## IDROSTOP PVC BI

## IDROSTOP PVC BI

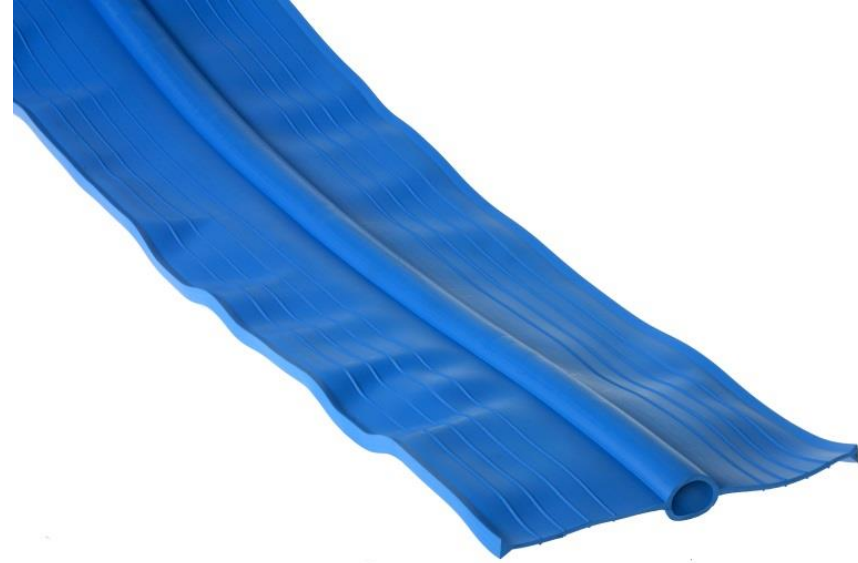

Underground structures, water retaining band used to prevent water interventions in water tanks and swimming pools.

Dimensions:

20cm x 25m

25cm x 25m

30cm x 25m
